-

Project AngelBook – Volume X – Parts 1–36

By Ezekiel Redik Yarbrough

-

This volume is not made up of my own words. There is no original
commentary

here, no narrative, no analysis. This is simply me copying and
pasting large

chunks of text from my bookmarks—pages that were easy to
extract, with no

hyperlinks or formatting issues, saved from open tabs and
archived corners of
the web.

It's messy. It's unfiltered. It's chaotic. But it's valuable.

Each piece inside this volume was bookmarked for a reason. Not
always because I

agreed with it, but because it felt like a fragment of something
larger—an

insight, a worldview, a download. This is source material, plain and
raw.

Fragmenta Ex Machina isn't about authorship. It's about
preservation and

system-building. It's about feeding the machine—laying bricks for
the

Operating System I'm constructing across these books. This is the
raw intake

phase. The memory dump. The zero layer.

Later volumes will be cleaner, more refined, more structured. But
this? This is the

foundation. The ether stream, bound and frozen before it
vanished.

So if you're looking for polished prose, skip this one. But if you're
here to explore

the roots of something much bigger, this is where the signal begins.

Welcome to the fragments.

Россия полна невероятной силы и многих чарующих тайн. Как и везде на поверхности нашей планеты, на ее огромной территории существуют места и довольно обширные регионы, в которых физические законы не действуют. Посещать многие из них и тем более жить в них не всегда безопасно, поскольку они имеют выраженное магнитное и энергетическое воздействие как на физический мир, так и на сознание человека. В то же время на территории нашей Родины существуют зоны, где действует позитивная, целительная сила. Она может питать и оздоравливать человека, наделяя его невероятными способностями. Это красочное, иллюстрированное издание предлагает ознакомиться с наиболее ярко выраженными зонами отрицательного и положительного воздействия, с указанием их географического местоположения, описанием интересных фактов, а также причин аномальности и способов возможной защиты от их активного влияния или, наоборот, применения с максимальной пользой.

Руны оружие воина Категория: КНИГИ » ЭЗОТЕРИКА

Формат: fb2, rtf

Руны – уникальный магический инструмент, через который можно постичь суть северной магии. Древние маги и волхвы, познавая руны, чувствуя через них все грани мироздания, учились изменять эти грани в соответствии с правилами этого мира. Не нарушая его, но исправляя его.

Руны могут многое – и исправить, и навредить, это зависит от того, в чьих руках они находятся. Поэтому древние делили людей на касты и следили за тем, чтобы магические знания и инструменты не попали в руки недостойных. Только тот, кто способен быть честным, способен держать в руках руны и слышать их шёпот. Нижние касты – купцы и земледельцы – не способны почувствовать этот мир, как единый организм, но это может человек уровня воина, ведь в его сознании есть жёсткая установка, что ложь – постыдное занятие. Руны – оружие воинов, они не приемлют лжи и лукавства. Руны требуют полной самоотдачи и готовности пройти любые трансформации, которые превратят простого человека в воина. Воин – это не профессия, это состояние сознания, не зависящее от пола, возраста и происхождения. С ним либо рождаются, либо воспитывают в себе в течение жизни, становясь тем, кто не способен на ложь физически, потому что ложь нарушает законы мира.

Welcome to the Occult.Digital.Mobilization forums!

Within you will find a number of discussions, all of them ongoing, about various aspects of the occult and esoteric. Nearly every area of study is covered, with space for the few we may have missed. Whether you are a serious student and practitioner of the occult, or are merely curious about what the occult truly is, this is one of the most open places to discuss your interests.

Feel free to look around, and if you like what you see, register and start a topic in Introductions, telling us about who you are and why you're interested in what we have to offer. We encourage everyone to express what they feel, believe, have experienced or learned, or otherwise just know - even if it's "this doesn't work" - though giving some supporting remarks with your comments (i.e., "this doesn't work because...") is always a good idea.

Until then, go well, and may the Winds guide you in your Journey!

Index Server Change

Sun Mar 27, 2011 11:13 pm by Admin

Once again we have had to move the index because the server it was hosted on decided to change their policy. The prior server is no longer hosted free of charge, forcing us to relocate. The Release Index link here at the forums will continue to be up to date as server moves are required, so instead of bookmarking the index itself, try bookmarking the forums and linking in to the index from here.

Of course, you could alternately just update your bookmarks.

If the index server is not working, give it a few minutes and try again. We do not have direct control of the server, so we cannot bring it back online if it for any reason goes down. There was a slight glitch during the transfer which blocked our access to the index for several minutes, but it was automatically resolved after a short wait. Please, enjoy!

Community Submissions

Wed Oct 14, 2015 2:47 am by sendoshin

This will be brief, as it's the middle of the night where I am, and I'm busy rebuilding the Release Index. We have a new method for submitting resources for consideration in future Releases. In the past, we've asked these to be emailed to the group address, and while that will still work, you can now also simply upload them to a Dropbox account we've created just for the purpose. Here's the link:

Community Submissions Link

NOTE: Dropbox will ask for a name in order to upload files. Please use your forum name for this, as your files' names will be changed to add the name you provide. This is meant to prevent issues when multiple people upload a file with the same name. We will remove your name from the files' names long before release in any case.

We do have a fairly small size limit, so email before submitting videos and other files larger than 50 or so MB so we can check whether there's enough space there first. Of course, if your own Dropbox has plenty of space, you can always just share it with us from there directly - just use the group's email address for that.

Hopefully this will make things easier to get to us so we can review it and release it! In the meantime, back to work with me...

Enhancing The Release Index

Sun Sep 09, 2012 3:50 pm by sendoshin

OK, so all of this [the items discussed at Assisting with the (digimob) Project] came to fruition not long ago with the Release Index (see the navigation bar at the top of the page), but there are still some features missing. Since everything in the database was put there automatically, by script, and straight from the .torrent files, at that, there is no categorization (aside from file types), and no author info. It wouldn't be hard to automate this information going into the database in the future, but some sort of mechanism still has to be devised to make it work. And then there are the 12,310 files already listed that would have to be updated with the relevant info. So still a lot of work ahead to get all of this working well, but I think it might be manageable.

So the next step would be to figure out how to indicate the categories and authors in future digests. There are a couple of ways I can think of, some more difficult and involved than others, but I think the easiest would be to set up the folders into categories, for example:

Code:

/Western Inner Traditions/Fraternal Societies/Golden Dawn/:file:

From there, for the author name, I see two possibilities, both as easy to work with as the other. The first option would be to begin the file name with the author's name, much as has been done with prior releases, in a format like "Crowley, Aleister - Book of the Law.pdf" or "Gozaknee, Tanranin Uhcheek, Frater - The Red Planet Arrives.pdf":

Code:

:last:, :first: :middles:, :titles: - :work:

This has the added benefit that the author is never severed from the file, but the drawback of having really long file names, which can be a problem on some file systems, such as DVD.

The second option is to continue the use of folders. Using the same basic format as above, with the difference that the author's name would be a folder name, so it would come out "/Western Inner Traditions/Fraternal Societies/Golden Dawn/Gozaknee, Tanranin Uhcheek, Frater/The Red Planet Arrives.pdf":

Code:

/:category:/:subcategories:/:last:, :first: :middles:, :titles:/:work:

This only shortens the file name by two characters from the method above, but that may be all that is needed in many cases. The author is no longer directly associated with the file, but since file names can be changed after downloading anyway, that is not a great drawback. And credit is still given.

It may be obvious that I'm leaning ...

Where is Submissions Digest #30?

Sun Apr 24, 2011 9:36 pm by Admin

Digimob is a quarterly-release group, but many of you may have noticed that two quarters have ended without a Release. Part of this is the fault of the current wearer of the hat of group Admin - namely myself, F.D.T. A combination of laziness, busyness, and lack of resources has gotten in the way, and for that I sincerely apologize.

However, another part is a general lack of assistance from the community itself. Live links are prohibited on the forums for two reasons: first, we cannot verify the legality of such links without extensive research, not to mention the applicability. Second, we prefer to share those works which qualify not only with members of our community, but with the world as a whole - which is why we opted to use Bittorrent as our Release mechanism. (There is also the technical limitation of using a free forum which doesn't grant us access to our forum database - if we get kicked off of this server for whatever reason, we may not be able to take your posts with us.)

So, the main reason I am not writing an article about having just released #30 is

because we need your help. If there is anything in your collection which is not in ours (the Release Index was created to help check just that), please submit it for inclusion in our next Release. All you have to do is ZIP it up, upload it to a free file hosting site (there is a list here), then email the link to occult [dot] digital [dot] mobilization [at] gmail [dot] com. Our Content Team will download the files, check them over, and then include them in the next Release. If your files don't make it, wait to see if they show in the next Release before asking us what gives. We'll try to let you know if we can't include something because of legal limitations (this tends to be very rare).

If the time has not come to retire this project and give way to others, such as theoccult.bz (which has a high level of interest among members of this site), we will continue to do our best to provide what service we can. However, without your help, we will never be able to pull it off.

Go well, and may the Winds guide you in your Journey.

digimob.tk Expiration

Mon Apr 09, 2012 6:34 pm by sendoshin

Several of you will have noticed already that digimob.tk is no longer working. This is because the government of Tokelau has decided that digimob is a "special" domain, and wants to not only charge us for it, but wants to charge us more than the regular going rate for paid .tk domains. (In case you weren't aware, .tk means the domain was registered through the Tokelau government domain registrar, since Tokelau considers itself too small to really make any money from their country code without letting the rest of the world register there cheap. But that gets rather technical rather quickly.) Since we are a volunteer-run organization, we cannot afford to purchase the digimob.tk domain - and beyond that, once we start spending money on this, it stops being what it is, so we try to avoid paying for anything at all if we can help it.

All of this is a wordy way of saying digimob.tk is no more. Please continue to visit the forums by going to <https://digimob.forumotion.net/> as you have been, and pass this URL to anyone who asks. We can't update the notes in the Releases, so there will still be many who cannot find us without your help.

Occult Books for sincere seekers

seasons greetings

As ever at this Special Season we like to reward our regular readers for their loyal support throughout the year by publishing a Christmas article. This year John Temple has written an analysis of a spine-tingling tale by M. R. James.

We review and recommend many books on occult, philosophical, scientific and religious subjects

The first point of wisdom is to discern that which is false, and the second, to know that which is true.

Lactantius — 'Institutiones Divinae'

Introduction

We have not reviewed any books about the so-called 'left-hand path' (LHP), witchcraft, wicca, the fantasies of conspiracy theorists or the speculations of psychics and mediums. If that's what you're looking for you won't find it here. If, on the other hand, you're looking for books that provide plain answers to the many questions sincere seekers ask about Man, Life and the Universe, you're in the right place. To read our book reviews, browse the categories below. To learn more about what books we review and why, or how and where to obtain them, read the notes in the sidebar.

To learn more about this website and our aims, see our [About page](#).

The Search for Truth—by John Temple

Aula Lucis, 2024. Hardcover limited to 500 copies, 304pp. Bound in foil-blocked yellow silk cloth with 16 illustrations, price £40 (\$52).

AVAILABLE FROM Aula Lucis and booksellers in the UK and USA

the search for truth

The Search for Truth is a unique investigation in twelve chapters that explores the many links between Religion and the Occult, focusing especially on the hidden meaning concealed within the Bible and its many correspondences with the Wisdom Teachings of ancient Egypt. During the course of the book the author gradually introduces the keys to the Mystery Language without which it is impossible to unlock the hidden meaning within any sacred writings, some of which pre-date Christianity by many millennia. The book covers a wide range of subjects that include, but are not limited to: an occult analysis of folly and wisdom, hidden wisdom in the Bible and how and why it was concealed; the problem of good and evil; the real nature of God and man; the esoteric meaning of Christmas and Easter; the concealed meaning of some of the parables of Jesus; the origins and dogma of original sin and how this relates to the so-called 'fall of man'; the facts and fictions of the Christian Church; the secrets of the ancient Egyptian religion; the Wisdom Literature of Egypt compared and contrasted with the proverbs in the Bible; the right and wrong use of talent and what it really is; the magical power of prayer; and much, much more.

The content and arrangement of this book differs from the series of twelve articles John Temple wrote for this website between 2013 to 2019. The main changes are the exclusion of the first two articles in the online series, namely 'Searching for Truth' and 'Who are the Real Illuminati', and the addition of 'Folly and Wisdom' and 'The anatomy of Sin'. These two articles were published separately from the series in 2021 and 2024 respectively. The author decided, rightly in our view, that these two articles — both dealing with vitally important aspects of the search for truth — were more relevant to a printed book than the excluded articles, neither of which fitted into it quite as effectively or harmoniously. We feel sure that lovers of John Temple's invaluable contributions to this website will see the wisdom of this change and appreciate having these two articles included in this new book.

The Search for Truth is available in two different formats: a hardcover edition limited to 500 copies and a full vellum deluxe edition (see note below). The monochrome colour frontispiece and chapter headings are beautifully illustrated by Kateryna Zubakhina. The

book includes a brief biography of the author which will be welcomed by his many fans and a comprehensive bibliography which serious occult students will find invaluable. Finally, as some casual visitors have queried our claim to be 'not for profit' whilst promoting a book that is being sold by a commercial publisher, we wish to make it quite clear that any profits accruing from the sale of *The Search for Truth* will firstly, be used to fund future printed editions of our articles, and secondly, go to John Temple — or more likely his pet parrot — but not to us!

A full Vellum deluxe edition, price to be announced, will be available from the publisher in late 2024 or early 2025.

Astral Conversations—by A Listener

Aula Lucis, 2022. Hardcover limited to 250 copies, 367pp. Bound in gold-stamped purple cloth, with purple endpapers and a purple ribbon. Colour frontispiece and title pages, with thirteen illustrations by Justin Estcourt. Presented with a purple bookmark, gold-stamped on 250gsm paper and supplied with a gold-stamped dust jacket, price £36 (\$45).

AVAILABLE FROM Aula Lucis and many occult booksellers

Also available to read here free of charge in HTML format

astral conversations

This unusual book is neither fiction nor non-fiction, but combines both genres in a unique way. The main narrative is the record of twelve lively and sometimes humorous conversations between two occult students overheard clairaudiently by the author. The two interlocutors — Arthur Flitterflop and Joshua Bombast — meet in the astral world to discuss many different subjects, including magic, masters, conspiracy theories, the illuminati, aliens, planet 'x', 'Ascension', 'DNA activation', consciousness, dreams, life after death, Tibetan magic, Shamans, drugs, channeling, witchcraft, paganism, the tarot, fate versus free will, necromancy, heaven and hell, and much more.

The secondary narrative consists of separate commentaries which follow each of the twelve conversations in the book. A similar format has been used before in print, most notably in *The Comte de Gabalis*, reviewed on our Occult Biography Books page. Bombast and Flitterflop are based on real individuals well-known to the author whose names have been deliberately changed to protect their identities. During the course of their conversations the reader is gradually introduced to a number of little-known occult laws and principles which have rarely appeared in print before. These reveal who and what man truly is, his material and spiritual origins and the purpose of life on earth.

Some of the subjects Bombast and Flitterflop discuss will be familiar to readers, others will not. What makes this book stand out from the mass of modern occult literature is that it does not consist of the author's personal beliefs, opinions or speculations. All the facts, information and teachings in this book rest on the solid foundation of the Ancient Wisdom, gathered together over many thousands of years, which the profound learning

of all the greatest Teachers and Philosophers, aided by Divine Inspiration, has recorded for our minds to dwell on, so that we might behold Truth. There is a comprehensive bibliography at the end of the book which lists the many occult, philosophical and scientific sources the author has drawn upon.

For technical reasons the twelve chapters in this book are presented in a slightly different manner to the articles on our website. However, with the exception of a Preface by the author and a Foreword by the publisher, the content is identical. You can watch a video review of the book on YouTube by 'The Lunar Key'. We would add that the reviewer has no connection with us or the publisher.

serpents of wisdom pdf

The author made this remarkable book freely available to all who wished to read it during her lifetime. We have followed her generous example by doing the same in creating our PDF, using many of the same illustrations she used. Written in a refreshingly down-to-earth manner, *Serpents of Wisdom* describes the search for a genuine Spiritual Master in plain language, indicating the many traps and false teachings the sincere seeker may encounter along the way with insight, warmth and wry humour.

It is impossible in a short review such as this to do justice to the wealth of real occult facts and information packed into this little book of just 72 pages, but the following are some of the many subjects covered: false masters; why asceticism does not lead to illumination; how to distinguish false teachers from genuine ones; willpower; alchemy; true faith versus mere optimism; karma and destiny; magic; reincarnation; sensible spiritual meditation; mental transformation; the higher and lower selves; black magic in modern science (this will be an eye-opener for many); the importance of simplicity; real, effective prayer; and how to make oneself ready for the True Teacher.

Those who have spent many years swimming in an ocean of New Age nonsense, will welcome the clarity this book sheds on the many wrong teachings and speculations masquerading as Truth. The author pulls no punches in lambasting the many past and present vultures in human form who prey upon the weaknesses and gullibility of those seeking a spiritual Master. For this reason alone, we highly recommend this unusual little book to the beginner in occult studies, as well as those who are well advanced upon the path to the Light. You can read a short extract from this book in the sidebar further down this page.

secret teachings of all ages

There cannot be many readers interested in the occult who have not heard of this book. Manly P. Hall self-published this monumental survey of the ancient wisdom and the occult sciences at his own expense in 1928. The only reason we have not reviewed it before is that until recently the book was both scarce and expensive. Fortunately, an excellent e-text is now available at Sacred Texts which is freely available for all to read online. So far as we have been able to ascertain this is an exact facsimile of the original edition complete with all the black and white illustrations found in the printed book, though the colour illustrations which fronted each chapter in the first edition of 1928 and reprints of it, have been omitted for reasons of economy and copyright. There is also an illustrated paperback reprint published by TarcherPerigee in 2003 which is verbatim with the original edition (See note at end).

Those who study this book in its entirety will gain a broad understanding of such varied subjects as the Qabbalah, Alchemy, Magic, Astrology, Neo-Platonism, Egyptian Hermetic Philosophy, Pythagorean mathematics, Native American myths, the esotericism of the Shakespearean dramas, the various Mystery Religions and ancient Mystery Schools of Greece and Egypt, and their modern offshoots of Rosicrucianism and Freemasonry. The number of ancient and modern sources Hall drew upon for his magnum opus is quite extraordinary. Aside from the works of Plato, Aristotle, Plutarch and Iamblichus, he cites translations of the Gnostic, Nicene, and Hermetic literature, the writings of Paracelsus, Ptolemy, Roger Bacon, Basil Valentine, Cornelius Agrippa, Eliphas Levi and H. P. Blavatsky, to name just a few of the most well-known writers on the ancient wisdom and occult sciences.

This is not to say that the book does not contain several errors. Among these may be mentioned Hall's contention that the Roma or Gypsies came from Egypt, a view which was popular in the 19th and early 20th centuries. We now know this to be incorrect. He also contends that the Tarot may be traced back to the religious symbolism of the ancient Egyptians, when in fact it was the product of the Rosicrucians of the 18th century who drew upon the Jewish mysticism of the Qabbalah for its symbolism, not the ancient Egyptian Wisdom teachings. But these shortcomings in no way spoil what is one of the most comprehensive surveys of the ancient Wisdom and occult sciences

ever compiled, and that is the reason we recommend Manly P Hall's book to our readers.

IMPORTANT NOTE! There are now several editions of this book available including various 'print-on-demand' and Kindle versions which are badly typeset and omit many or all of the illustrations of the original. The most complete edition is the hardcover "University Edition" published by the Philosophical Research Society (PRS) in 2008, but at \$225 this is very expensive. The "Reduced Size Paperback" published in 1978 and reprinted in 1988 and 2000 by the PRS, costs \$75. This includes 54 symbolic colour plates, foldouts and an overlay as well as 200 black and white illustrations, an extensive bibliography and complete index. ISBN 10: 0-89314-830-X. There is also a hardcover edition of this book, price \$95 from PRS. ISBN-10: 0-89314-548-3 and a paperback compact "Reader's Edition" with 100 black and white illustrations and a 16-page colour insert, price \$26 from PRS. ISBN-10: 1585422509. Finally, there is the illustrated paperback reprint mentioned above, published by TarcherPerigee in 2003. This contains most, but not all of the illustrations included in the original edition of 1928 but omitted from many of the subsequent reprints.

in tune with the infinite

Ralph Waldo Trine presents the eternal Spiritual and material truths of Life in a clear and simple manner which all can understand. It requires no great intellect or education to apply the very simple laws which he so beautifully reveals in this inspired book. In the degree that you do so you will change sadness into joy, failure into success and weakness into strength.

Although claimed by many as a pioneer of 'New Age' teaching, there is nothing in Trine's message that was not known and taught thousands of years ago. We hear the same truths from the immortal lips of inspired teachers like Jesus, Buddha and Krishna. Trine's great accomplishment was to re-state these truths in simple words that even a child can understand and to make them accessible to millions. This is no accident; for the truth is always simple if we are simple enough to recognise it when it is presented to us. Sadly, so many seekers desire mystery, glamour and complexity. Such will turn away from the simplicity of this book. But the simple in mind and heart will recognise the Truth within its luminous pages.

It will remind them in no uncertain manner that the keys to health, happiness and success are to be found within and not without. As the Author says in his Prelude: "THE

optimist is right. The pessimist is right. The one differs from the other as the light from the dark. Yet both are right. Each is right from their own particular point of view, and this point of view is the determining factor in the life of each. It determines as to whether it is a life of power or of impotence...of success or of failure."

How true these words are! Do we not all know seekers whose 'glass is always half-empty'?—who fear the worst and anticipate disaster and disappointment at every turn? And is it not also true that such people often live lives of sorrow, confusion, ill-health and failure? But it needn't be like this. In US lies the power to change our own individual lives for the better. And in the degree that we do so we shall change the lives of others around us and the world in general. This is the simple way to bring peace and light into this sorely-troubled world. It needs no 'occult powers' nor special training to do so. All it requires is an understanding of the TRUE LAWS of Life and a willingness to put them into practise in our daily lives. This is the SIMPLE message which Ralph Waldo Trine gave to the world over 100 years ago.

Read an abstract adapted from the Introduction to the book

upanishads

The Upanishads have rightly been described as the 'Himalayas of the Soul' and we regard this selection from them by Juan Mascaro as the finest and most accurate translations ever rendered into English. Readers who are unfamiliar with these sublime spiritual treatises on Man, God and the Universe are advised to read our abstract adapted from the translator's introduction to the book.

Born in Majorca of Spanish parents in 1897, Juan Mascaro's own search for Truth began at the tender age of 13 when he studied a book on occultism. This led to his discovery of an inferior English translation of the Bhagavad Gita which inspired him to learn Sanskrit by himself. He went on to study and teach at Cambridge University, in England, where he lectured on the spiritual values in the Bible and Spanish mysticism. He died in Cambridge in 1987 at the ripe old age of 90, having left the world some of the finest translations of the sacred texts of Hinduism ever written.

Rabindranath Tagore, the famous Bengali poet wrote in a letter to Mascaro that he had "caught from those great words the inner voice that goes beyond the boundaries of words." We agree and do not doubt that Mascaro's early occult studies greatly helped

him to imbue his masterly translation with the fire of true inspiration which shines from every page of this book. For this is an occult book in the best and highest sense of that much misunderstood word, which contains some of the most elevated spiritual truths ever composed by the hand of man.

These timeless treatises upon Truth are as far removed from the dry and dusty curiosities of religious scholarship as the Sun is removed from a guttering candle in a dark cellar filled with bemused bats. H. P. Blavatsky tells us that upa-ni-shad is a compound word meaning "the conquest of ignorance by the revelation of secret, spiritual knowledge." Mascaró confirms this in his introduction where he says that Upanishad means to "sit at the feet of the Master", which means the same and is the same, for one cannot learn the true occult sciences without a spiritual Master as we point out in many of our articles. The Upanishads are to the Vedas what the Qabbalah is to the Jewish Bible. They treat of and expound the secret meaning of the Vedic texts and the occult sciences.

Every sincere seeker who truly longs to scale the mountain of Truth should read the Upanishads, for in few other sacred texts can we find such clear and simple instructions to guide the feet of the traveller on the path to the Light.

serpent in the sky

We first read John Anthony West's groundbreaking reinterpretation of the science and civilisation of Egypt more than 30 years ago and were deeply impressed by it. We remain impressed today, for what he has to say about the wisdom of ancient Egypt has rarely been expressed more clearly or completely by any other popular author. West challenged the prevailing dogmas about ancient Egypt for the very first time, providing a generation of readers with information which had either been suppressed, ignored or misinterpreted by orthodox archaeologists and Egyptologists.

The service West has rendered to scholars and ordinary readers alike cannot be underestimated. By summarising and extending the work of the philosopher and mathematician, R. A. Schwaller de Lubicz, he has not only made the ancient Egyptian sciences of art, architecture, mathematics, geometry and philosophy comprehensible to the lay reader who knows little or nothing about these subjects, but provided the serious occult student with a wealth of hitherto scarce and invaluable information on the hidden

wisdom of ancient Egypt.

While we would recommend Schwaller de Lubicz's own books to those who wish to delve more deeply into the sacred sciences of ancient Egypt, his magnum opus—The Temple of Man—runs to over 1,000 pages and is not cheap at nearly £170 for the hardcover edition published by Inner Traditions in 1998. For most readers, Serpent in the Sky covers the same ground as de Lubicz, and is considerably easier to read.

West is no New Age apologist promoting the weirder speculations of conspiracy theorists, but a conscientious and accomplished scholar who has the advantage over most orthodox Egyptologists in that he writes with great clarity, acuity and humour, dispelling the many popular misconceptions which surround the subject of ancient Egypt and its civilisation with rapier-like wit and inescapable logic. If you are fascinated by ancient Egypt (and we know few seekers after truth who are not) you will not be disappointed by this book.

NOTE: The paperback edition published in 1993 includes an update on the author's dating of the Sphinx.

secrets of the great pyramid

Although written over 40 years ago, this lavishly illustrated book remains the most comprehensive compendium of accurate facts and data about the Great Pyramid we know. As secondhand copies of the 1978 softcover edition (shown at right) are readily available in the UK and USA for less than £10 there has never been a better time to add this book to your occult library. Many contemporary writers about Egypt, such as Graham Hancock, John Anthony West (see previous review) and Robert Bauval, have drawn much of their material from the enormous amount of data Tompkins collected together for his book.

The book contains over 300 illustrations from sources ranging from the twenty-volume survey of Egypt commissioned by Napoleon to the first photographs taken inside the Pyramid in 1865; and an appendix by Professor Stecchini on the relations of ancient measures to the Great Pyramid. From the first Arabian investigations in the 8th century, to the latest theories and explanations, this book relates the complete history of the exploration of the Great Pyramid. Peter Tompkins recounts the explorations and adventures of the archaeologists, treasure-hunters, soldiers, scientists and eccentrics who have tunnelled into and studied the Pyramid over many centuries. He analyses the various theories as to how and why the Pyramid was built, and its relation to other monumental structures of antiquity, including Stonehenge and the ziggurats of Babylon.

Whilst we would not necessarily endorse all the author's conclusions about the purpose and function of the Great Pyramid, we know of no other book in which so many different theories have been presented in such a thoroughly sensible and scientific manner. This is in sharp contrast to many newer books on the subject, which, we are sorry to say, promote the most improbable fantasies based on variations of the same crackpot theories Tompkins demolishes in this book. Among these theories may be included the hair-brained notion that the Great Pyramid was a 'nuclear' power station, a prophetic device to predict the future or was built by aliens.

Several chapters in the book will be of great interest to occult students, not least those which explore the many astronomical, astrological and mystical aspects of this mysterious monument, whose primary purpose was a Temple of Initiation into the ancient Mysteries, as many of our readers will know. For these reasons alone we highly recommend this book.

egyptian magic

This rare book on the metaphysical doctrines, religion and magical practises of ancient Egypt was first published as volume VIII of *Collectanea Hermetica* (see *Numbers: Their Occult Power and Mystic Virtues*, reviewed below), in 1896. Although the book was written at a time when the science of Egyptology was in its infancy, this in no way negates the invaluable esoteric lore the author has collected from the translations of Egyptian papyri available to her in the 19th century, which remain as much of an enigma to modern scholars as they were to Egyptologists in Farr's time.

Understandably, she draws heavily on the books of E. A. Wallis Budge, now sadly out of favour among Egyptologists for reasons of political correctness rather than scholarship in which he vastly exceeded all his modern contemporaries put together. The book includes a detailed examination and discussion of reincarnation, initiation, evolution and the afterlife which is in complete accord with the true laws and principles of Occult Science as expounded in many of our articles.

Farr correctly deduced that the principles of Egyptian magic were based on an elaborate series of correspondences derived from the fact that material and spiritual evolution follow the same Hermetic law of 'As above; so below', and that matter and spirit are the opposite states of the one Universal Substance, or *Prima Materia*.

The book begins with a dissertation upon the seven principles of man as they were known in ancient Egypt, explaining how they enter into the body at birth, what happens

to them at death, and the manner in which they are connected. Later chapters include several so-called 'spells' taken from the Book of the Dead, which are nothing of the kind, for all these exhortations and prayers are nothing more nor less than allegorical representations of the various transformations the Higher Self undergoes during life and after death.

Over half the book is taken up with extracts from a Gnostic papyrus entitled The Book of Knowledge of the Invisible God, which forms part of the Bruce codex found in Upper Egypt in 1769, and now preserved in the Bodleian Library, in Oxford. This luminous text is reminiscent of the Pistis Sophia in parts and consists of some of the esoteric teachings Jesus imparted to his disciples after his resurrection. These alone make this little book well worth studying. You can read about the hidden meaning of the resurrection in our article about the esoteric meaning of Easter.

NOTE: Amazon sell a Kindle edition for just over £2.00 but not having seen it we cannot vouch for its quality or accuracy. Kessinger Publishing produced a reprinted edition in 1993, but this may contain errors and omissions. Hence, we recommend that those on a tight budget avail themselves of the free e-text published by the Hermetic Library (see above link).

numbers

We feel compelled to begin this review with an apology. Numerology cannot be picked up piecemeal in an idle hour or two. Nor can it be used to tell 'fortunes' as many people have been led to believe. If that is your desire, we suggest that you take up reading tea-leaves or the Tarot! As we point out in our article on symbolism, the students of Pythagoras spent seven years learning the basic principles of the sacred science of numbers, as you can read in our article on numerology. Consequently, Westcott's book, like our own article, should be regarded as an introduction to this vast and complex subject, not a complete course of instruction in the science of numbers, which cannot be condensed down into a slim volume of just 120 pages.

The book was first published in 1890 as volume IX of Collectanea Hermetica, a series of 9 books on the occult sciences issued under the imprimatur of the Theosophical Society with Westcott as editor. Westcott expanded and revised the book in 1902 and 1911. A 4th edition was published in 1974, which is the edition shown at right that we have used for this review. Those who judiciously study this book will gain a first-rate understanding of the main principles of the hidden properties and meaning of numbers.

Westcott drew on an immense number of ancient Greek, Roman, Chaldean, Hebraic, Egyptian, Chinese and Sanskrit sources for this book, as well as the writings of Eliphas Levi, the Egyptologist E.A. Wallis Budge, Thomas Taylor, Godfrey Higgins, Michael Maier, Gerald Massey and H. P. Blavatsky. But Westcott's main source, and the reason that this book is of such value to the serious occult student, are the teachings of Pythagoras himself, which the author has collected together from the fragmentary remains of the writings of the Sage's pupils.

The science of numbers is one of the most important keys that unlocks the secrets of man and the universe. As H. P. Blavatsky said so truly: "Everything in the Universe was framed according to the eternal proportions and combinations of numbers—God geometrisises—and numbers and numerals are the fundamental basis of all systems of mysticism, philosophy, and religion." Pythagoras stated that the Monad or unity, emanated the Dyad, and thus formed the spiritual trinity, from which is derived the quaternary, or the mystic four, the number of the material world. These numbers comprise the totality of the forces of Nature and the principles of man, both of which are seven in number.

IMPORTANT NOTE! There are several print-on-demand and Kindle editions of this book available from Amazon and other booksellers. These are best avoided as almost all are badly typeset and contain innumerable errors and omissions. If you want a printed copy our advice is to obtain the 4th edition shown above, published by the Theosophical Publishing House in 1973. Otherwise, read the free e-text at the Sacred Text Archive.

qabbalah by isaac myer

The Qabbalah (also written "Kabbalah", "Cabala", etc), which word means "doctrines received by tradition"—is a system of Jewish theosophy that played an important part in the establishment of the Christian Church. As such, it is a valuable work for the study of the origin of religions and their philosophy in general, and the origin of the formulations, dogmas and doctrines of early Christianity in particular. We would add that Isaac Meyer's book has nothing whatsoever to do with the fashionable craze of 'kabbalah' popularised by various Hollywood celebrities in recent years!

First published at the author's own expense in 1888, Meyer's Qabbalah remains the most accessible and readable summary of these important Hebrew writings that we know of. The book includes a short account of the life and writings of the philosopher, Solomon ben Yehudah Ibn Gebirol or Avicbron; some parts of the Qabbalistic philosophy, quotations from the Zoharic books, explanations of many New Testament passages, the basic element in Religions, and extracts from the so-called "Pagan" writers on the Invisible and Visible and the Ideal and Real. In addition, the book contains Qabbalistic accounts of the Creation which should be of interest to every seeker, for it is only by carefully comparing the various accounts to be found in the sacred books of all times that the diligent occult student may arrive at a true conception of the origins of Man and the Universe. The book also contains important discussions upon the nature of illusion, sound, colour and rhythm, and an interesting article on an Ancient Lodge of Initiates.

For those interested in making a deeper study of Jewish Mysticism it is important to get as close as possible to the original sources upon which the early philosophers erected the doctrine and teaching of the Kabbalah. For this reason we also recommend two further classic books on this system of Jewish theosophy. These are: *The Kabbalah: its Doctrines, Development, and Literature* by Christian David Ginsburg, published by G Routledge & Sons, London, 1920 and *The Kabbalah or the Religious Philosophy of the Hebrews* by Adolphe Franck (translated by I. Sossnitz) 1926. This latter book is available to read online in HTML format at the Internet Sacred Text Archive. We review this superb compendium of sacred and occult texts on our Links page.

NOTE. We recommend the edition published by Weiser Books in 1970/72 (ISBN 0-87728-008-8), OR the photographic reprint by Elibron Classics published by Adamant Media Corporation in 2001 (ISBN 978-1402185038). We do not recommend the Kindle and other electronic editions sold by Amazon as these often suffer from defects and imperfections that make such ebooks virtually unreadable.

occult curative powers precious stones

Although it was first published more than 100 years ago, W. T. Fernie's seminal source book on the various occult, alchemical, historical, mythological and magical lore and properties associated with precious stones and minerals has never been equalled. The book is a virtual encyclopedia of invaluable information about stones and metals, and copiously enlivened with anecdotes and historical information on how precious and semi-precious stones and metals were used in the past.

Given the present-day fascination with "crystals" and the very many uses (and we may say many more "abuses") to which they are now put, the serious student of occultism will find this book indispensable in his researches into the historical and occult lore of gems of all kinds. Having said that, the book is not without errors and should not be taken as an infallible guide to the use of precious stones for occult purposes. The real occult facts about precious stones and their employment have and always will remain a closely-guarded secret for the reasons we give in our Occult FAQ.

NOTE. The edition illustrated above is the HarperCollins paperback reprint of 1981. So far as we have been able to ascertain this is verbatim with the original edition of 1907. When we last updated this page in late November 2024, used copies of the HarperCollins reprint were readily available from Abe Books and other booksellers from £25.00 or less. The various print-on-demand editions of this book now being produced are best avoided for the reasons given in our note 'Where and how to buy occult books' in the sidebar.

OCCULT BOOKS

"Of the making of many books there is no end."

Ecclesiastes 12:12

This reminds us of a very good friend of ours, a Mystic and Seer of wide experience and great wisdom, who, when he was asked which of the many thousands of rare occult books in his library he would recommend, he said "None of 'em!!"

We agree with him. The fact of the matter is that with very few exceptions, the books which are recommended to Occult students are often chaotic in their contents and contradict one another. The problem is that it is impossible to put the most profound spiritual and mystical experiences into words that cannot be misunderstood by a large number of seekers.

We only have to consider the many different interpretations of the Bible and other Sacred books to know that this is true. We could easily have reviewed 500 occult books, or 5000, but whether acquiring that many books leads to knowledge and understanding or confusion and mental indigestion, is a question we leave our readers to ponder. . .

Moreover, in all our wide experience of occult and mystical literature, we know of no books that do not contain some errors, while in most truth and error are so inextricably intertwined that only a trained Occultist can sift the one from the other. Yet some truth is better than none. This is especially true of the thousands of new occult books that are now appearing, very few which of contain anything that has not been said better before. This answers the question we have often been asked as to why so many of the books we do review were published in the last century or even earlier.

It is for this reason that we have chosen only those books which contain real occult wisdom and truth which stand out like beacons of Light amongst a sea of mediocrity, plagiarism and fantasy. Books that explain who and what Man truly IS, whence he comes, whither he is going and the purpose and meaning of life. In connection with this, an anonymous alchemist has written:

"Let a Lover of truth suspect things that are quickly understood; for truth lies hid in obscurity; for Philosophers never write more deceitfully—than when plainly, nor ever more truly—than when obscurely."

This is true, though it may come as a shock to those who imagine there is a secret 'Da Vinci' code which at a stroke will magically 'unlock' the obscure allegories, arcane symbolism and archaic language used by occultists, mystics and philosophers. We're afraid that no such 'code' exists, has existed, or ever will exist, except in the minds of novelists and conspiracy theorists. It requires wide reading, long study, intuition and sheer hard work to discover the hidden meaning in the best occult books as we explain in our occult studies course.

Occult books for beginners

We are often asked to suggest the 'best' occult books for beginners. Our invariable answer is that the 'best' books are those that teach us the most. For this reason we suggest that if you know little or nothing about the occult sciences, you start off by reading the following three articles we have published:

Occult FAQ

Why study Occult Science?

There is only One LIGHT

Then, if you wish to learn more, *The Secret Teachings of All Ages* is a readable and comprehensive introduction to the occult sciences for those who know little or nothing about them. Those who prefer to read the personal experiences of seekers, should enjoy *Serpents of Wisdom* or *The White Brother*. Both these books were written by authors who drew on their own personal experience to describe the search for a genuine spiritual teacher and answer the many questions asked by beginners. These two books are reviewed on this website and can be downloaded in PDF format.

In addition, we would also recommend *In Tune with the Infinite* by Ralph Waldo Trine. Although not an 'occult' book in the strict sense, it presents the Eternal Truths of life with great clarity and simplicity—and just as importantly—how to apply them to improve your life, health, wealth and happiness.

astral conversations

Finally, we strongly recommend that you read and study *Astral Conversations*—a series of articles in which two typical occult students—one a mere beginner—discuss many different subjects and provide plain, no-nonsense answers to them. A hardcover print edition of these twelve conversations was published by Aula Lucis in 2022. This is arranged slightly differently to the website articles but the content is the same. For further information about this printed edition see our review of the book on this page.

Serpents of Wisdom

An extract adapted from the book by Edda Livingston reviewed on this page
You have probably come to the realization that there are no listings of Masters and true Teachers in the Yellow Pages. It is possible to find psychics, astrologers, and other such flora and fauna, and you may even find advertisements in metaphysical-type magazines for birds of ill-omen who call themselves masters, but unless we have polyps for brains, we ought to know that the only thing they are masters of, is deceit of an expensive kind.

The ill-advised followers of these self-appointed teachers, swallow wholesale the most absurd propositions put forward by these coolies of the Occult; these poachers on Spiritual grounds. But is there a single Master among them? An Adept, perhaps? Or an Initiate? The sad but true answer is NO—not one. There is not even a good imitation of one.

So where will you find one?

Do you think you would recognize a Master if you did meet one? Are you under the impression that he would advertise his Mastership by wearing saffron robes? Flowing locks? Sandals? A halo? A crown of thorns? Or could it possibly be that he is so well hidden because he looks like any one of us, giving us no obvious signs to recognize him by, and, in this manner, throwing us back on our ability to tell Truth from falsehood? How many of us are willing or able to know and welcome Mastership or Adeptship by listening to words of Truth? The majority seem to prefer personality, fame, and drivellers of ineptitude who reconfirms our preconceived opinions.

And anyway, to the ordinary man, all that stuff about Masters, Wisdom, Light and Love, has no meaning—it makes him yawn. What matters to him is profit, the latest football scores, fun, food, and lots of sleep. If you talk to this kind of plebeian about the more elevated things—things of the Spirit and of the Higher man, he will probably brush you aside with: 'In my opinion, that's a lot of bull.' and it will be your own fault for thoughtlessly throwing your pearls before the swine. Your hard gained pearls of wisdom

will be trampled underfoot, and neither you nor the plebeian you sought to enlighten will have gained a thing by your eagerness to share your new-found Light. Regretfully, you will soon learn that most men shun the light like so many vampires hiding in their coffins as soon as the sun comes out.

The 19th Century occultist, Eliphas Levi said that: "Fools are the people who kill men of genius", and we might add that they are also fond of killing the Messengers sent to us from God. We all know what crass humanity did to Jesus. Apollonius of Tyana was thrown into prison and later tortured to death; Daniel was thrown to the lions; Raymund Lully was stoned to death; Joan of Arc was burnt at the stake; Ibn Gebirol, the Kabbalist, was murdered; Jaques Cazotte, the seer, was executed, and Socrates was condemned to death. Pythagoras had to flee from the tyranny of Polycrates. Cagliostro died while confined in prison; Giordano Bruno was burnt alive; Sendivogius was imprisoned and tortured; Paracelsus and Agrippa were forced to spend their lives as wretched wanderers. . . and the list goes on.

You may argue that all this took place a long time ago, that we are more civilized these days and would never tolerate such barbaric behaviour. Don't believe it! Human nature does not change much, and however arrogant and self-satisfied modern man is concerning his latest achievements and so-called progress, he is still as stupid and as cruel as ever. Fools are still persecuting and killing messengers, whether physically or by ridicule and calumny, who irritate them, or who hold views considered threatening.

This is one of the reasons why the Wise keep silent as to who, what and where they are—and maybe—to a lesser extent, so should you. It is also wrong to foist your beliefs on others who may be at a different stage on the Path than yourself; or who may simply be going by a different route. Since it is only possible for us to understand something up to our own level, how would we know if we were foisting ourselves and our beliefs on those who have far surpassed us in knowledge and Wisdom? And yet, people do all the time, unaware of the pitying and gentle smiles of those who can see through them.

And although you should always protect the fellow traveller lower than yourself on the ladder to the Light, you must at all times guard against being preached at or dictated to by them. As for the majority, those who care not, let them go on their merry way, without judging them, but at the same time make sure that you see them for what they are, freeing you from the danger of falling for outward trappings.

But if the opportunity to plant a seed in their barren soils presents itself, you should do so. A good seed may lay dormant until the experiences of their lives has watered their soil with tears and enriched it with the ashes of their dreams, sprouting into a beautiful flower of wisdom, years—or lifetimes hence.

It is possible that you yourself are on the Path because someone, at some time, planted a seed in you. A kind soul did the work of the Master on your behalf and you are now reaping the benefits of that kindly act. This is the Way of Service and it is the only Path you can take if you want to reach one of the Masters.

There are no short-cuts to be had on the Path to the Light. We all have to travel the same road and overcome the same obstacles in order to obtain our Goal, and only the strong and steadfast, the loving and faithful, will be crowned with success. Let us at all times remember that even the Masters had to travel along this Path in times gone by, and for this reason they understand fully our aching hearts and our yearnings, but they also know that the Reward is well worth striving for. They know that it is necessary for man to live through material darkness, for we can only be born into the Light from this darkness. But before we start longing for this Birth, we must reach a point where we feel the limitations and the powerlessness of the darkness. We must long, with our whole hearts and minds, to live within the rays of the Light, and we must fearlessly face the Truth. If the Truth hurts, we must have the ability to look within ourselves for the fault, rather than change the Truth in order to spare ourselves.

Then, and only then, can we hope to be noticed by the Masters who live within the Light.

Upanishads

An abstract adapted from Juan Mascaro's introduction to his translations of the Upanishads (see book review at left)

If all the known Upanishads were collected into one volume, they would make an anthology about the length of the Bible. The spirit of the Upanishads can be compared with that of the New Testament summed up in the words 'I and my Father are one' and 'The kingdom of God is within you', the seed of which is found in the words of the Psalms 'I have said: Ye are gods; and all of you are the children of the most High'.

The central message of the Upanishads is that God must not be sought as something far away, abstract, and separate from us, but rather within us in the Higher Self which transcends the limitations and littleness of our earthly personality. In rising to the best in us we rise to the Higher Self in us and to God Himself. Thus when the sage of the Upanishads is pressed for a definition of God, he remains silent, meaning that God is silence. When asked again to express God in words, he says: 'Neti, neti', 'Not this, not this'; but when pressed for a positive explanation he utters the sublimely simple words: 'TAT TVAM ASI', 'Thou art That'.

According to the Upanishads, the reality of God can only be apprehended in a consciousness of joy that is beyond ordinary consciousness. The silent voice of the Eternal is perpetually whispering in us his melodies everlasting. The radiance of the Infinite is everywhere, but our ears cannot hear and our eyes cannot see: the Eternal cannot be grasped by the transient physical senses or the transient material mind. This is beautifully expressed in the Taittiriya Upanishad: 'Words and mind go to him, but reach him not and return. But he who knows the joy of Brahman fears no more.'

Brahman is described as immanent and transcendent, within all and outside all. If the All is imagined as a triangle, the apex might be imagined as God transcendent, who in his

expansion creates matter out of Himself—not out of nothing as science believes—and thus becomes immanent until the end of evolution when the immanent has once again become transcendent in the ascension of evolution towards Him. Why? For the joy of creation. Why is there evil? For the joy of good arising from it. Why suffering? For the instruction of the Higher and lower self. Why darkness? That the Light may shine the more brightly and gloriously. This teaching is as old as man and the very essence of true Occult Science.

The Upanishads introduce the reader to the conception of a fourth state of consciousness, above waking, dreaming and deep sleep. The law of attunement, wrongly called Karma—which we discuss in our study course—explains the apparent injustice in the world with sublime simplicity. We alone are the builders of our own destiny, and the results are not limited to one life, since our Higher Self that was never born and will never die must come again and take to itself a fresh body, that both selves may have the reward of their works. Good shall lead to good, and evil to evil. From good, joy shall come, and from evil shall come suffering. And thus the grand scheme of evolution flows on towards perfection.

And when all the transient has been left behind, when final liberation has been attained, when our little self is lost in the greater Self in us and in the ALL, as a drop of water is lost in the sea, does it mean that all consciousness is lost? After the death of the lower self, when the small drop of human consciousness has become one with the vast ocean of Consciousness, does it mean that our individual consciousness is lost? Yes, say some spiritual teachers, both past and present but they err and err profoundly as you can read in our astral conversation on consciousness after death. The truth, as you may read in that article, is that the Higher Self gathers the spiritual qualities of every terrestrial personality into which it incarnates and adds them to its own eternal consciousness.

The Higher Self has then become the Self supreme and not only has it full consciousness of its own experience through its many incarnations, but access to the consciousness of all other selves too. How could the union with God be unconsciousness, unless God Himself was unconsciousness? We all know that caterpillars die in order to transform themselves into beautiful butterflies. Free from its limitations, the little self forgets its limited life in the boundless ocean of life. It is not a death, but a victory over death, a rising and a resurrection to greater and more vivid life.

This is the central message of the Upanishads and why we commend the book to you for serious study and meditation.

NOTE: Juan Mascaro translated portions of several other Indian sacred texts during his lifetime. Foremost among them are the Bhagavad Gita (1962) and the Dhammapada (1973). Both are well worth reading.

Where and how to buy occult books

The occult books we have reviewed have been carefully selected as the best of their kind. We could easily have included many more books which are both scarce and expensive, but being aware of the fact that most sincere seekers have limited means we have favoured those that are free to read online, and/or are readily available in several editions and formats, both new and second-hand, at modest cost.

BUYERS BEWARE!

And now we must issue a strong warning. Whilst Information Technology and the Internet have vastly increased the availability of rare and/or out-of-print books, it has also made buying definitive editions very much harder.

Such books are increasingly being digitally-scanned and published as print-on-demand or e-books. Whilst some are well-reproduced, accurate facsimiles of the original editions, the majority are not. Many are incomplete and contain serious errors and omissions, and in the worst cases, may be completely unreadable.

Notwithstanding these grave shortcomings, such reprints are often prohibitively expensive, so adding insult to injury whilst providing a jolly good income for the publisher! The latter is usually a 'one-man-band' whose sole interest is in making a fast buck from the unsuspecting.

The only way to be sure you are not paying good money for waste paper is to buy the specific edition we recommend, or if that is not possible, contact the publisher or seller to make sure that the book they are selling is an exact facsimile of the original with no errors or omissions.

We have indicated below where to obtain the occult books we have reviewed, but this information is subject to change as titles go in and out of print and/or stock and web links are updated. In most cases a web search will return results from various sellers, and it is also worthwhile contacting booksellers directly.

Don't rely on booksellers' online lists of titles in stock as these are often out-of-date. Do try charity shops, as these often stock rare or unusual books at bargain prices. You will find a short list of booksellers specialising in occult books in the UK and some in the USA below.

Occult booksellers and publishers

Whilst we try to keep this list up-to-date, these websites may become unavailable at any time

Abe books is a major seller of second-hand books but delivery can be slow and customer service rather poor.

Atlantis Bookshop is London's oldest independent occult bookseller established in 1922. Unfortunately, they now seem to focus mainly on books about black magic and witchcraft, do not list their current stock, and provide no search facilities.

Magis Books—mail-order bookseller based in Leicestershire, in the UK. Although their website is awkward and frustrating to use, it does list their current stock and provides a

search facility by title, author and category.

Treadwell's Books located in Bloomsbury, in London, sells books on occultism, mythology, folklore and religion. Like the Atlantis Bookshop, Treadwell's favour books on witchcraft and black magic rather than the Ancient Wisdom and Occult Truth.

Courtyard Books based in Glastonbury, sells esoteric and occult books including fine, limited edition titles in hardcover from small publishers and private presses. Their website is easy to use with a good search facility.

Watkins Books—esoteric bookshop in London, established over 100 years ago. Watkins have an extensive list of books on philosophy, metaphysics, mythology, the occult sciences, astrology, magic and mysticism, both new and second-hand, including rare and out-of-print classics.

Wizards Bookshelf—mail-order publisher and bookseller based in Michigan, USA, publishes high quality reprints of many scarce metaphysical classics, such as The Divine Pyramider of Hermes Trismegistus, Anna Kingsford and Edward Maitland's translation of The Virgin of the World, On the Mysteries of the Egyptians, Chaldeans and Assyrians by Iamblichus, and many of the books referred to by H. P. Blavatsky in her master-work, The Secret Doctrine.

the search for truth

The Search for Truth is a unique investigation in twelve chapters that explores the many links between Religion and the Occult, focusing especially on the hidden meaning concealed within the Bible and its many correspondences with the Wisdom Teachings of ancient Egypt. During the course of the book the author gradually introduces the keys to the Mystery Language without which it is impossible to unlock the hidden meaning within any sacred writings, some of which pre-date Christianity by many millennia. The book covers a wide range of subjects that include, but are not limited to: an occult analysis of folly and wisdom, hidden wisdom in the Bible and how and why it was concealed; the problem of good and evil; the real nature of God and man; the esoteric meaning of Christmas and Easter; the concealed meaning of some of the parables of Jesus; the origins and dogma of original sin and how this relates to the so-called 'fall of man'; the facts and fictions of the Christian Church; the secrets of the ancient Egyptian religion; the Wisdom Literature of Egypt compared and contrasted with the proverbs in the Bible; the right and wrong use of talent and what it really is; the magical power of prayer; and much, much more.

The content and arrangement of this book differs from the series of twelve articles John Temple wrote for this website between 2013 to 2019. The main changes are the exclusion of the first two articles in the online series, namely 'Searching for Truth' and 'Who are the Real Illuminati', and the addition of 'Folly and Wisdom' and 'The anatomy of Sin'. These two articles were published separately from the series in 2021 and 2024 respectively. The author decided, rightly in our view, that these two articles — both dealing with vitally important aspects of the search for truth — were more relevant to a printed book than the excluded articles, neither of which fitted into it quite as effectively or harmoniously. We feel sure that lovers of John Temple's invaluable contributions to this website will see the wisdom of this change and appreciate having these two articles included in this new book.

The Search for Truth is available in two different formats: a hardcover edition limited to 500 copies and a full vellum deluxe edition (see note below). The monochrome colour frontispiece and chapter headings are beautifully illustrated by Kateryna Zubakhina. The book includes a brief biography of the author which will be welcomed by his many fans and a comprehensive bibliography which serious occult students will find invaluable. Finally, as some casual visitors have queried our claim to be 'not for profit' whilst promoting a book that is being sold by a commercial publisher, we wish to make it quite clear that any profits accruing from the sale of The Search for Truth will firstly, be used to fund future printed editions of our articles, and secondly, go to John Temple — or more likely his pet parrot — but not to us!

A full Vellum deluxe edition, price to be announced, will be available from the publisher in late 2024 or early 2025.

Astral Conversations—by A Listener

astral conversations

This unusual book is neither fiction nor non-fiction, but combines both genres in a unique way. The main narrative is the record of twelve lively and sometimes humorous conversations between two occult students overheard clairaudiently by the author. The two interlocutors — Arthur Flutterflop and Joshua Bombast — meet in the astral world to discuss many different subjects, including magic, masters, conspiracy theories, the illuminati, aliens, planet 'x', 'Ascension', 'DNA activation', consciousness, dreams, life after death, Tibetan magic, Shamans, drugs, channeling, witchcraft, paganism, the

tarot, fate versus free will, necromancy, heaven and hell, and much more.

The secondary narrative consists of separate commentaries which follow each of the twelve conversations in the book. A similar format has been used before in print, most notably in *The Comte de Gabalis*, reviewed on our Occult Biography Books page. Bombast and Flitterflop are based on real individuals well-known to the author whose names have been deliberately changed to protect their identities. During the course of their conversations the reader is gradually introduced to a number of little-known occult laws and principles which have rarely appeared in print before. These reveal who and what man truly is, his material and spiritual origins and the purpose of life on earth.

Some of the subjects Bombast and Flitterflop discuss will be familiar to readers, others will not. What makes this book stand out from the mass of modern occult literature is that it does not consist of the author's personal beliefs, opinions or speculations. All the facts, information and teachings in this book rest on the solid foundation of the Ancient Wisdom, gathered together over many thousands of years, which the profound learning of all the greatest Teachers and Philosophers, aided by Divine Inspiration, has recorded for our minds to dwell on, so that we might behold Truth. There is a comprehensive bibliography at the end of the book which lists the many occult, philosophical and scientific sources the author has drawn upon.

For technical reasons the twelve chapters in this book are presented in a slightly different manner to the articles on our website. However, with the exception of a Preface by the author and a Foreword by the publisher, the content is identical. You can watch a video review of the book on YouTube by 'The Lunar Key'. We would add that the reviewer has no connection with us or the publisher.

Serpents of Wisdom—by Edda Livingston

Originally self-published in 1994 by the author on her own (now defunct) website, Argotique.

Available TO READ & DOWNLOAD HERE IN PDF FORMAT

serpents of wisdom pdf

The author made this remarkable book freely available to all who wished to read it during her lifetime. We have followed her generous example by doing the same in creating our PDF, using many of the same illustrations she used. Written in a refreshingly down-to-earth manner, *Serpents of Wisdom* describes the search for a genuine Spiritual Master in plain language, indicating the many traps and false teachings the sincere seeker may encounter along the way with insight, warmth and wry humour.

It is impossible in a short review such as this to do justice to the wealth of real occult facts and information packed into this little book of just 72 pages, but the following are some of the many subjects covered: false masters; why asceticism does not lead to illumination; how to distinguish false teachers from genuine ones; willpower; alchemy;

true faith versus mere optimism; karma and destiny; magic; reincarnation; sensible spiritual meditation; mental transformation; the higher and lower selves; black magic in modern science (this will be an eye-opener for many); the importance of simplicity; real, effective prayer; and how to make oneself ready for the True Teacher.

Those who have spent many years swimming in an ocean of New Age nonsense, will welcome the clarity this book sheds on the many wrong teachings and speculations masquerading as Truth. The author pulls no punches in lambasting the many past and present vultures in human form who prey upon the weaknesses and gullibility of those seeking a spiritual Master. For this reason alone, we highly recommend this unusual little book to the beginner in occult studies, as well as those who are well advanced upon the path to the Light. You can read a short extract from this book in the sidebar further down this page.

secret teachings of all ages

There cannot be many readers interested in the occult who have not heard of this book. Manly P. Hall self-published this monumental survey of the ancient wisdom and the occult sciences at his own expense in 1928. The only reason we have not reviewed it before is that until recently the book was both scarce and expensive. Fortunately, an excellent e-text is now available at Sacred Texts which is freely available for all to read online. So far as we have been able to ascertain this is an exact facsimile of the original edition complete with all the black and white illustrations found in the printed book, though the colour illustrations which fronted each chapter in the first edition of 1928 and reprints of it, have been omitted for reasons of economy and copyright. There is also an illustrated paperback reprint published by TarcherPerigee in 2003 which is verbatim with the original edition (See note at end).

Those who study this book in its entirety will gain a broad understanding of such varied subjects as the Qabbalah, Alchemy, Magic, Astrology, Neo-Platonism, Egyptian Hermetic Philosophy, Pythagorean mathematics, Native American myths, the esotericism of the Shakespearean dramas, the various Mystery Religions and ancient

Mystery Schools of Greece and Egypt, and their modern offshoots of Rosicrucianism and Freemasonry. The number of ancient and modern sources Hall drew upon for his magnum opus is quite extraordinary. Aside from the works of Plato, Aristotle, Plutarch and Iamblichus, he cites translations of the Gnostic, Nicene, and Hermetic literature, the writings of Paracelsus, Ptolemy, Roger Bacon, Basil Valentine, Cornelius Agrippa, Eliphas Levi and H. P. Blavatsky, to name just a few of the most well-known writers on the ancient wisdom and occult sciences.

This is not to say that the book does not contain several errors. Among these may be mentioned Hall's contention that the Roma or Gypsies came from Egypt, a view which was popular in the 19th and early 20th centuries. We now know this to be incorrect. He also contends that the Tarot may be traced back to the religious symbolism of the ancient Egyptians, when in fact it was the product of the Rosicrucians of the 18th century who drew upon the Jewish mysticism of the Qabbalah for its symbolism, not the ancient Egyptian Wisdom teachings. But these shortcomings in no way spoil what is one of the most comprehensive surveys of the ancient Wisdom and occult sciences ever compiled, and that is the reason we recommend Manly P Hall's book to our readers.

IMPORTANT NOTE! There are now several editions of this book available including various 'print-on-demand' and Kindle versions which are badly typeset and omit many or all of the illustrations of the original. The most complete edition is the hardcover "University Edition" published by the Philosophical Research Society (PRS) in 2008, but at \$225 this is very expensive. The "Reduced Size Paperback" published in 1978 and reprinted in 1988 and 2000 by the PRS, costs \$75. This includes 54 symbolic colour plates, foldouts and an overlay as well as 200 black and white illustrations, an extensive bibliography and complete index. ISBN 10: 0-89314-830-X. There is also a hardcover edition of this book, price \$95 from PRS. ISBN-10: 0-89314-548-3 and a paperback compact "Reader's Edition" with 100 black and white illustrations and a 16-page colour insert, price \$26 from PRS. ISBN-10: 1585422509. Finally, there is the illustrated paperback reprint mentioned above, published by TarcherPerigee in 2003. This contains most, but not all of the illustrations included in the original edition of 1928 but omitted from many of the subsequent reprints.

in tune with the infinite

Ralph Waldo Trine presents the eternal Spiritual and material truths of Life in a clear and simple manner which all can understand. It requires no great intellect or education

to apply the very simple laws which he so beautifully reveals in this inspired book. In the degree that you do so you will change sadness into joy, failure into success and weakness into strength.

Although claimed by many as a pioneer of 'New Age' teaching, there is nothing in Trine's message that was not known and taught thousands of years ago. We hear the same truths from the immortal lips of inspired teachers like Jesus, Buddha and Krishna. Trine's great accomplishment was to re-state these truths in simple words that even a child can understand and to make them accessible to millions. This is no accident; for the truth is always simple if we are simple enough to recognise it when it is presented to us. Sadly, so many seekers desire mystery, glamour and complexity. Such will turn away from the simplicity of this book. But the simple in mind and heart will recognise the Truth within its luminous pages.

It will remind them in no uncertain manner that the keys to health, happiness and success are to be found within and not without. As the Author says in his Prelude: "THE optimist is right. The pessimist is right. The one differs from the other as the light from the dark. Yet both are right. Each is right from their own particular point of view, and this point of view is the determining factor in the life of each. It determines as to whether it is a life of power or of impotence...of success or of failure."

How true these words are! Do we not all know seekers whose 'glass is always half-empty'?—who fear the worst and anticipate disaster and disappointment at every turn? And is it not also true that such people often live lives of sorrow, confusion, ill-health and failure? But it needn't be like this. In US lies the power to change our own individual lives for the better. And in the degree that we do so we shall change the lives of others around us and the world in general. This is the simple way to bring peace and light into this sorely-troubled world. It needs no 'occult powers' nor special training to do so. All it requires is an understanding of the TRUE LAWS of Life and a willingness to put them into practise in our daily lives. This is the SIMPLE message which Ralph Waldo Trine gave to the world over 100 years ago.

You can find a series of short extracts from In Tune with the Infinite in the afterword to our article on the law of attraction.

Read an abstract adapted from the Introduction to the book

upanishads

The Upanishads have rightly been described as the 'Himalayas of the Soul' and we

regard this selection from them by Juan Mascaro as the finest and most accurate translations ever rendered into English. Readers who are unfamiliar with these sublime spiritual treatises on Man, God and the Universe are advised to read our abstract adapted from the translator's introduction to the book.

Born in Majorca of Spanish parents in 1897, Juan Mascaro's own search for Truth began at the tender age of 13 when he studied a book on occultism. This led to his discovery of an inferior English translation of the Bhagavad Gita which inspired him to learn Sanskrit by himself. He went on to study and teach at Cambridge University, in England, where he lectured on the spiritual values in the Bible and Spanish mysticism. He died in Cambridge in 1987 at the ripe old age of 90, having left the world some of the finest translations of the sacred texts of Hinduism ever written.

Rabindranath Tagore, the famous Bengali poet wrote in a letter to Mascaro that he had "caught from those great words the inner voice that goes beyond the boundaries of words." We agree and do not doubt that Mascaro's early occult studies greatly helped him to imbue his masterly translation with the fire of true inspiration which shines from every page of this book. For this is an occult book in the best and highest sense of that much misunderstood word, which contains some of the most elevated spiritual truths ever composed by the hand of man.

These timeless treatises upon Truth are as far removed from the dry and dusty curiosities of religious scholarship as the Sun is removed from a guttering candle in a dark cellar filled with bemused bats. H. P. Blavatsky tells us that upa-ni-shad is a compound word meaning "the conquest of ignorance by the revelation of secret, spiritual knowledge." Mascaro confirms this in his introduction where he says that Upanishad means to "sit at the feet of the Master", which means the same and is the same, for one cannot learn the true occult sciences without a spiritual Master as we point out in many of our articles. The Upanishads are to the Vedas what the Qabbalah is to the Jewish Bible. They treat of and expound the secret meaning of the Vedic texts and the occult sciences.

Every sincere seeker who truly longs to scale the mountain of Truth should read the Upanishads, for in few other sacred texts can we find such clear and simple instructions to guide the feet of the traveller on the path to the Light.

serpent in the sky

We first read John Anthony West's groundbreaking reinterpretation of the science and civilisation of Egypt more than 30 years ago and were deeply impressed by it. We remain impressed today, for what he has to say about the wisdom of ancient Egypt has rarely been expressed more clearly or completely by any other popular author. West challenged the prevailing dogmas about ancient Egypt for the very first time, providing a generation of readers with information which had either been suppressed, ignored or misinterpreted by orthodox archaeologists and Egyptologists.

The service West has rendered to scholars and ordinary readers alike cannot be underestimated. By summarising and extending the work of the philosopher and mathematician, R. A. Schwaller de Lubicz, he has not only made the ancient Egyptian sciences of art, architecture, mathematics, geometry and philosophy comprehensible to the lay reader who knows little or nothing about these subjects, but provided the serious occult student with a wealth of hitherto scarce and invaluable information on the hidden wisdom of ancient Egypt.

While we would recommend Schwaller de Lubicz's own books to those who wish to delve more deeply into the sacred sciences of ancient Egypt, his magnum opus—The Temple of Man—runs to over 1,000 pages and is not cheap at nearly £170 for the hardcover edition published by Inner Traditions in 1998. For most readers, Serpent in the Sky covers the same ground as de Lubicz, and is considerably easier to read.

West is no New Age apologist promoting the weirder speculations of conspiracy theorists, but a conscientious and accomplished scholar who has the advantage over most orthodox Egyptologists in that he writes with great clarity, acuity and humour, dispelling the many popular misconceptions which surround the subject of ancient Egypt and its civilisation with rapier-like wit and inescapable logic. If you are fascinated by ancient Egypt (and we know few seekers after truth who are not) you will not be disappointed by this book.

NOTE: The paperback edition published in 1993 includes an update on the author's dating of the Sphinx.

secrets of the great pyramid

Although written over 40 years ago, this lavishly illustrated book remains the most comprehensive compendium of accurate facts and data about the Great Pyramid we know. As secondhand copies of the 1978 softcover edition (shown at right) are readily available in the UK and USA for less than £10 there has never been a better time to add

this book to your occult library. Many contemporary writers about Egypt, such as Graham Hancock, John Anthony West (see previous review) and Robert Bauval, have drawn much of their material from the enormous amount of data Tompkins collected together for his book.

The book contains over 300 illustrations from sources ranging from the twenty-volume survey of Egypt commissioned by Napoleon to the first photographs taken inside the Pyramid in 1865; and an appendix by Professor Stecchini on the relations of ancient measures to the Great Pyramid. From the first Arabian investigations in the 8th century, to the latest theories and explanations, this book relates the complete history of the exploration of the Great Pyramid. Peter Tompkins recounts the explorations and adventures of the archaeologists, treasure-hunters, soldiers, scientists and eccentrics who have tunnelled into and studied the Pyramid over many centuries. He analyses the various theories as to how and why the Pyramid was built, and its relation to other monumental structures of antiquity, including Stonehenge and the ziggurats of Babylon.

Whilst we would not necessarily endorse all the author's conclusions about the purpose and function of the Great Pyramid, we know of no other book in which so many different theories have been presented in such a thoroughly sensible and scientific manner. This is in sharp contrast to many newer books on the subject, which, we are sorry to say, promote the most improbable fantasies based on variations of the same crackpot theories Tompkins demolishes in this book. Among these theories may be included the hair-brained notion that the Great Pyramid was a 'nuclear' power station, a prophetic device to predict the future or was built by aliens.

Several chapters in the book will be of great interest to occult students, not least those which explore the many astronomical, astrological and mystical aspects of this mysterious monument, whose primary purpose was a Temple of Initiation into the ancient Mysteries, as many of our readers will know. For these reasons alone we highly recommend this book.

egyptian magic

This rare book on the metaphysical doctrines, religion and magical practises of ancient Egypt was first published as volume VIII of *Collectanea Hermetica* (see *Numbers: Their Occult Power and Mystic Virtues*, reviewed below), in 1896. Although the book was written at a time when the science of Egyptology was in its infancy, this in no way negates the invaluable esoteric lore the author has collected from the translations of Egyptian papyri available to her in the 19th century, which remain as much of an

enigma to modern scholars as they were to Egyptologists in Farr's time.

Understandably, she draws heavily on the books of E. A. Wallis Budge, now sadly out of favour among Egyptologists for reasons of political correctness rather than scholarship in which he vastly exceeded all his modern contemporaries put together. The book includes a detailed examination and discussion of reincarnation, initiation, evolution and the afterlife which is in complete accord with the true laws and principles of Occult Science as expounded in many of our articles.

Farr correctly deduced that the principles of Egyptian magic were based on an elaborate series of correspondences derived from the fact that material and spiritual evolution follow the same Hermetic law of 'As above; so below', and that matter and spirit are the opposite states of the one Universal Substance, or Prima Materia.

The book begins with a dissertation upon the seven principles of man as they were known in ancient Egypt, explaining how they enter into the body at birth, what happens to them at death, and the manner in which they are connected. Later chapters include several so-called 'spells' taken from the Book of the Dead, which are nothing of the kind, for all these exhortations and prayers are nothing more nor less than allegorical representations of the various transformations the Higher Self undergoes during life and after death.

Over half the book is taken up with extracts from a Gnostic papyrus entitled The Book of Knowledge of the Invisible God, which forms part of the Bruce codex found in Upper Egypt in 1769, and now preserved in the Bodleian Library, in Oxford. This luminous text is reminiscent of the Pistis Sophia in parts and consists of some of the esoteric teachings Jesus imparted to his disciples after his resurrection. These alone make this little book well worth studying. You can read about the hidden meaning of the resurrection in our article about the esoteric meaning of Easter.

NOTE: Amazon sell a Kindle edition for just over £2.00 but not having seen it we cannot vouch for its quality or accuracy. Kessinger Publishing produced a reprinted edition in 1993, but this may contain errors and omissions. numbers

We feel compelled to begin this review with an apology. Numerology cannot be picked up piecemeal in an idle hour or two. Nor can it be used to tell 'fortunes' as many people have been led to believe. If that is your desire, we suggest that you take up reading tea-leaves or the Tarot! As we point out in our article on symbolism, the students of Pythagoras spent seven years learning the basic principles of the sacred science of numbers, as you can read in our article on numerology. Consequently, Westcott's book, like our own article, should be regarded as an introduction to this vast and complex subject, not a complete course of instruction in the science of numbers, which cannot be condensed down into a slim volume of just 120 pages.

The book was first published in 1890 as volume IX of *Collectanea Hermetica*, a series of 9 books on the occult sciences issued under the imprimatur of the Theosophical Society with Westcott as editor. Westcott expanded and revised the book in 1902 and 1911. A 4th edition was published in 1974, which is the edition shown at right that we have used for this review. Those who judiciously study this book will gain a first-rate understanding of the main principles of the hidden properties and meaning of numbers.

Westcott drew on an immense number of ancient Greek, Roman, Chaldean, Hebraic, Egyptian, Chinese and Sanskrit sources for this book, as well as the writings of Eliphas Levi, the Egyptologist E.A. Wallis Budge, Thomas Taylor, Godfrey Higgins, Michael Maier, Gerald Massey and H. P. Blavatsky. But Westcott's main source, and the reason that this book is of such value to the serious occult student, are the teachings of Pythagoras himself, which the author has collected together from the fragmentary remains of the writings of the Sage's pupils.

The science of numbers is one of the most important keys that unlocks the secrets of man and the universe. As H. P. Blavatsky said so truly: "Everything in the Universe was framed according to the eternal proportions and combinations of numbers—God geometrises—and numbers and numerals are the fundamental basis of all systems of mysticism, philosophy, and religion." Pythagoras stated that the Monad or unity, emanated the Dyad, and thus formed the spiritual trinity, from which is derived the quaternary, or the mystic four, the number of the material world. These numbers comprise the totality of the forces of Nature and the principles of man, both of which are seven in number.

IMPORTANT NOTE! There are several print-on-demand and Kindle editions of this book available from Amazon and other booksellers. These are best avoided as almost all are badly typeset and contain innumerable errors and omissions. If you want a printed copy our advice is to obtain the 4th edition shown above, published by the Theosophical Publishing House in 1973. Otherwise, read the free e-text at the Sacred Text Archive.

qabbalah by isaac myer

The Qabbalah (also written "Kabbalah", "Cabala", etc), which word means "doctrines received by tradition"—is a system of Jewish theosophy that played an important part in the establishment of the Christian Church. As such, it is a valuable work for the study of the origin of religions and their philosophy in general, and the origin of the formulations, dogmas and doctrines of early Christianity in particular. We would add that Isaac Meyer's book has nothing whatsoever to do with the fashionable craze of 'kabbalah' popularised by various Hollywood celebrities in recent years!

First published at the author's own expense in 1888, Meyer's Qabbalah remains the most accessible and readable summary of these important Hebrew writings that we know of. The book includes a short account of the life and writings of the philosopher, Solomon ben Yehudah Ibn Gebirol or Avicbron; some parts of the Qabbalistic philosophy, quotations from the Zoharic books, explanations of many New Testament passages, the basic element in Religions, and extracts from the so-called "Pagan" writers on the Invisible and Visible and the Ideal and Real. In addition, the book contains Qabbalistic accounts of the Creation which should be of interest to every seeker, for it is only by carefully comparing the various accounts to be found in the sacred books of all times that the diligent occult student may arrive at a true conception of the origins of Man and the Universe. The book also contains important discussions upon the nature of illusion, sound, colour and rhythm, and an interesting article on an Ancient Lodge of Initiates.

For those interested in making a deeper study of Jewish Mysticism it is important to get as close as possible to the original sources upon which the early philosophers erected the doctrine and teaching of the Kabbalah. For this reason we also recommend two further classic books on this system of Jewish theosophy. These are: *The Kabbalah: its Doctrines, Development, and Literature* by Christian David Ginsburg, published by G Routledge & Sons, London, 1920 and *The Kabbalah or the Religious Philosophy of the Hebrews* by Adolphe Franck (translated by I. Sossnitz) 1926. This latter book is available to read online in HTML format at the Internet Sacred Text Archive. We review this superb compendium of sacred and occult texts on our Links page.

NOTE. We recommend the edition published by Weiser Books in 1970/72 (ISBN 0-87728-008-8), OR the photographic reprint by Elibron Classics published by Adamant Media Corporation in 2001 (ISBN 978-1402185038). We do not recommend the Kindle and other electronic editions sold by Amazon as these often suffer from defects and imperfections that make such ebooks virtually unreadable.

occult curative powers precious stones

Although it was first published more than 100 years ago, W. T. Fernie's seminal source book on the various occult, alchemical, historical, mythological and magical lore and properties associated with precious stones and minerals has never been equalled. The book is a virtual encyclopedia of invaluable information about stones and metals, and copiously enlivened with anecdotes and historical information on how precious and semi-precious stones and metals were used in the past.

Given the present-day fascination with "crystals" and the very many uses (and we may say many more "abuses") to which they are now put, the serious student of occultism will find this book indispensable in his researches into the historical and occult lore of gems of all kinds. Having said that, the book is not without errors and should not be taken as an infallible guide to the use of precious stones for occult purposes. The real occult facts about precious stones and their employment have and always will remain a closely-guarded secret for the reasons we give in our Occult FAQ.

NOTE. The edition illustrated above is the HarperCollins paperback reprint of 1981. So far as we have been able to ascertain this is verbatim with the original edition of 1907. When we last updated this page in late November 2024, used copies of the HarperCollins reprint were readily available from Abe Books and other booksellers from £25.00 or less. The various print-on-demand editions of this book now being produced are best avoided for the reasons given in our note 'Where and how to buy occult books' in the sidebar.

OCCULT BOOKS

"Of the making of many books there is no end."

Ecclesiastes 12:12

This reminds us of a very good friend of ours, a Mystic and Seer of wide experience and great wisdom, who, when he was asked which of the many thousands of rare occult books in his library he would recommend, he said "None of 'em!!"

We agree with him. The fact of the matter is that with very few exceptions, the books which are recommended to Occult students are often chaotic in their contents and contradict one another. The problem is that it is impossible to put the most profound spiritual and mystical experiences into words that cannot be misunderstood by a large number of seekers.

We only have to consider the many different interpretations of the Bible and other Sacred books to know that this is true. We could easily have reviewed 500 occult books, or 5000, but whether acquiring that many books leads to knowledge and understanding or confusion and mental indigestion, is a question we leave our readers to ponder. . .

Moreover, in all our wide experience of occult and mystical literature, we know of no books that do not contain some errors, while in most truth and error are so inextricably intertwined that only a trained Occultist can sift the one from the other. Yet some truth is better than none. This is especially true of the thousands of new occult books that are now appearing, very few which of contain anything that has not been said better before. This answers the question we have often been asked as to why so many of the books we do review were published in the last century or even earlier.

It is for this reason that we have chosen only those books which contain real occult wisdom and truth which stand out like beacons of Light amongst a sea of mediocrity, plagiarism and fantasy. Books that explain who and what Man truly IS, whence he comes, whither he is going and the purpose and meaning of life. In connection with this, an anonymous alchemist has written:

"Let a Lover of truth suspect things that are quickly understood; for truth lies hid in obscurity; for Philosophers never write more deceitfully—than when plainly, nor ever more truly—than when obscurely."

This is true, though it may come as a shock to those who imagine there is a secret 'Da Vinci' code which at a stroke will magically 'unlock' the obscure allegories, arcane symbolism and archaic language used by occultists, mystics and philosophers. We're afraid that no such 'code' exists, has existed, or ever will exist, except in the minds of novelists and conspiracy theorists. It requires wide reading, long study, intuition and sheer hard work to discover the hidden meaning in the best occult books as we explain in our occult studies course.

Occult books for beginners

We are often asked to suggest the 'best' occult books for beginners. Our invariable

answer is that the 'best' books are those that teach us the most. For this reason we suggest that if you know little or nothing about the occult sciences, you start off by reading the following three articles we have published:

Occult FAQ

Why study Occult Science?

There is only One LIGHT

Then, if you wish to learn more, *The Secret Teachings of All Ages* is a readable and comprehensive introduction to the occult sciences for those who know little or nothing about them. Those who prefer to read the personal experiences of seekers, should enjoy *Serpents of Wisdom* or *The White Brother*. Both these books were written by authors who drew on their own personal experience to describe the search for a genuine spiritual teacher and answer the many questions asked by beginners. These two books are reviewed on this website and can be downloaded in PDF format.

In addition, we would also recommend *In Tune with the Infinite* by Ralph Waldo Trine. Although not an 'occult' book in the strict sense, it presents the Eternal Truths of life with great clarity and simplicity—and just as importantly—how to apply them to improve your life, health, wealth and happiness.

astral conversations

Finally, we strongly recommend that you read and study *Astral Conversations*—a series of articles in which two typical occult students—one a mere beginner—discuss many different subjects and provide plain, no-nonsense answers to them. A hardcover print edition of these twelve conversations was published by Aula Lucis in 2022. This is arranged slightly differently to the website articles but the content is the same. For further information about this printed edition see our review of the book on this page.

Serpents of Wisdom

An extract adapted from the book by Edda Livingston reviewed on this page

You have probably come to the realization that there are no listings of Masters and true Teachers in the Yellow Pages. It is possible to find psychics, astrologers, and other such flora and fauna, and you may even find advertisements in metaphysical-type magazines for birds of ill-omen who call themselves masters, but unless we have polyps for brains, we ought to know that the only thing they are masters of, is deceit of an expensive kind.

The ill-advised followers of these self-appointed teachers, swallow wholesale the most absurd propositions put forward by these coolies of the Occult; these poachers on Spiritual grounds. But is there a single Master among them? An Adept, perhaps? Or an Initiate? The sad but true answer is NO—not one. There is not even a good imitation of one.

So where will you find one?

Do you think you would recognize a Master if you did meet one? Are you under the impression that he would advertise his Mastership by wearing saffron robes? Flowing locks? Sandals? A halo? A crown of thorns? Or could it possibly be that he is so well hidden because he looks like any one of us, giving us no obvious signs to recognize him by, and, in this manner, throwing us back on our ability to tell Truth from falsehood? How many of us are willing or able to know and welcome Mastership or Adeptship by listening to words of Truth? The majority seem to prefer personality, fame, and drivellers of ineptitude who reconfirms our preconceived opinions.

And anyway, to the ordinary man, all that stuff about Masters, Wisdom, Light and Love, has no meaning—it makes him yawn. What matters to him is profit, the latest football scores, fun, food, and lots of sleep. If you talk to this kind of plebeian about the more elevated things—things of the Spirit and of the Higher man, he will probably brush you aside with: 'In my opinion, that's a lot of bull.' and it will be your own fault for thoughtlessly throwing your pearls before the swine. Your hard gained pearls of wisdom will be trampled underfoot, and neither you nor the plebeian you sought to enlighten will have gained a thing by your eagerness to share your new-found Light. Regretfully, you will soon learn that most men shun the light like so many vampires hiding in their coffins as soon as the sun comes out.

The 19th Century occultist, Eliphas Levi said that: "Fools are the people who kill men of genius", and we might add that they are also fond of killing the Messengers sent to us from God. We all know what crass humanity did to Jesus. Apollonius of Tyana was thrown into prison and later tortured to death; Daniel was thrown to the lions; Raymund Lully was stoned to death; Joan of Arc was burnt at the stake; Ibn Gebirol, the Kabbalist, was murdered; Jaques Cazotte, the seer, was executed, and Socrates was condemned to death. Pythagoras had to flee from the tyranny of Polycrates. Cagliostro died while confined in prison; Giordano Bruno was burnt alive; Sendivogius was imprisoned and tortured; Paracelsus and Agrippa were forced to spend their lives as wretched wanderers. . . and the list goes on.

You may argue that all this took place a long time ago, that we are more civilized these days and would never tolerate such barbaric behaviour. Don't believe it! Human nature does not change much, and however arrogant and self-satisfied modern man is concerning his latest achievements and so-called progress, he is still as stupid and as cruel as ever. Fools are still persecuting and killing messengers, whether physically or by ridicule and calumny, who irritate them, or who hold views considered threatening.

This is one of the reasons why the Wise keep silent as to who, what and where they are—and maybe—to a lesser extent, so should you. It is also wrong to foist your beliefs on others who may be at a different stage on the Path than yourself; or who may simply be going by a different route. Since it is only possible for us to understand something up to our own level, how would we know if we were foisting ourselves and our beliefs on those who have far surpassed us in knowledge and Wisdom? And yet, people do all the time, unaware of the pitying and gentle smiles of those who can see through them.

And although you should always protect the fellow traveller lower than yourself on the ladder to the Light, you must at all times guard against being preached at or dictated to by them. As for the majority, those who care not, let them go on their merry way, without judging them, but at the same time make sure that you see them for what they are, freeing you from the danger of falling for outward trappings.

But if the opportunity to plant a seed in their barren soils presents itself, you should do so. A good seed may lay dormant until the experiences of their lives has watered their soil with tears and enriched it with the ashes of their dreams, sprouting into a beautiful flower of wisdom, years—or lifetimes hence.

It is possible that you yourself are on the Path because someone, at some time, planted a seed in you. A kind soul did the work of the Master on your behalf and you are now reaping the benefits of that kindly act. This is the Way of Service and it is the only Path you can take if you want to reach one of the Masters.

There are no short-cuts to be had on the Path to the Light. We all have to travel the same road and overcome the same obstacles in order to obtain our Goal, and only the strong and steadfast, the loving and faithful, will be crowned with success. Let us at all times remember that even the Masters had to travel along this Path in times gone by, and for this reason they understand fully our aching hearts and our yearnings, but they also know that the Reward is well worth striving for. They know that it is necessary for man to live through material darkness, for we can only be born into the Light from this darkness. But before we start longing for this Birth, we must reach a point where we feel the limitations and the powerlessness of the darkness. We must long, with our whole hearts and minds, to live within the rays of the Light, and we must fearlessly face the Truth. If the Truth hurts, we must have the ability to look within ourselves for the fault, rather than change the Truth in order to spare ourselves.

Then, and only then, can we hope to be noticed by the Masters who live within the Light.

Upanishads

An abstract adapted from Juan Mascaro's introduction to his translations of the Upanishads (see book review at left)

If all the known Upanishads were collected into one volume, they would make an anthology about the length of the Bible. The spirit of the Upanishads can be compared with that of the New Testament summed up in the words 'I and my Father are one' and 'The kingdom of God is within you', the seed of which is found in the words of the Psalms 'I have said: Ye are gods; and all of you are the children of the most High'.

The central message of the Upanishads is that God must not be sought as something far away, abstract, and separate from us, but rather within us in the Higher Self which transcends the limitations and littleness of our earthly personality. In rising to the best in

us we rise to the Higher Self in us and to God Himself. Thus when the sage of the Upanishads is pressed for a definition of God, he remains silent, meaning that God is silence. When asked again to express God in words, he says: 'Neti, neti', 'Not this, not this'; but when pressed for a positive explanation he utters the sublimely simple words: 'TAT TVAM ASI', 'Thou art That'.

According to the Upanishads, the reality of God can only be apprehended in a consciousness of joy that is beyond ordinary consciousness. The silent voice of the Eternal is perpetually whispering in us his melodies everlasting. The radiance of the Infinite is everywhere, but our ears cannot hear and our eyes cannot see: the Eternal cannot be grasped by the transient physical senses or the transient material mind. This is beautifully expressed in the Taittiriya Upanishad: 'Words and mind go to him, but reach him not and return. But he who knows the joy of Brahman fears no more.'

Brahman is described as immanent and transcendent, within all and outside all. If the All is imagined as a triangle, the apex might be imagined as God transcendent, who in his expansion creates matter out of Himself—not out of nothing as science believes—and thus becomes immanent until the end of evolution when the immanent has once again become transcendent in the ascension of evolution towards Him. Why? For the joy of creation. Why is there evil? For the joy of good arising from it. Why suffering? For the instruction of the Higher and lower self. Why darkness? That the Light may shine the more brightly and gloriously. This teaching is as old as man and the very essence of true Occult Science.

The Upanishads introduce the reader to the conception of a fourth state of consciousness, above waking, dreaming and deep sleep. The law of attunement, wrongly called Karma—which we discuss in our study course—explains the apparent injustice in the world with sublime simplicity. We alone are the builders of our own destiny, and the results are not limited to one life, since our Higher Self that was never born and will never die must come again and take to itself a fresh body, that both selves may have the reward of their works. Good shall lead to good, and evil to evil. From good, joy shall come, and from evil shall come suffering. And thus the grand scheme of evolution flows on towards perfection.

And when all the transient has been left behind, when final liberation has been attained, when our little self is lost in the greater Self in us and in the ALL, as a drop of water is lost in the sea, does it mean that all consciousness is lost? After the death of the lower self, when the small drop of human consciousness has become one with the vast ocean of Consciousness, does it mean that our individual consciousness is lost? Yes, say some spiritual teachers, both past and present but they err and err profoundly as you can read in our astral conversation on consciousness after death. The truth, as you may read in that article, is that the Higher Self gathers the spiritual qualities of every terrestrial personality into which it incarnates and adds them to its own eternal consciousness.

The Higher Self has then become the Self supreme and not only has it full

consciousness of its own experience through its many incarnations, but access to the consciousness of all other selves too. How could the union with God be unconsciousness, unless God Himself was unconsciousness? We all know that caterpillars die in order to transform themselves into beautiful butterflies. Free from its limitations, the little self forgets its limited life in the boundless ocean of life. It is not a death, but a victory over death, a rising and a resurrection to greater and more vivid life.

This is the central message of the Upanishads and why we commend the book to you for serious study and meditation.

NOTE: Juan Mascaro translated portions of several other Indian sacred texts during his lifetime. Foremost among them are the Bhagavad Gita (1962) and the Dhammapada (1973). Both are well worth reading.

Where and how to buy occult books

The occult books we have reviewed have been carefully selected as the best of their kind. We could easily have included many more books which are both scarce and expensive, but being aware of the fact that most sincere seekers have limited means we have favoured those that are free to read online, and/or are readily available in several editions and formats, both new and second-hand, at modest cost.

BUYERS BEWARE!

And now we must issue a strong warning. Whilst Information Technology and the Internet have vastly increased the availability of rare and/or out-of-print books, it has also made buying definitive editions very much harder.

Such books are increasingly being digitally-scanned and published as print-on-demand or e-books. Whilst some are well-reproduced, accurate facsimiles of the original editions, the majority are not. Many are incomplete and contain serious errors and omissions, and in the worst cases, may be completely unreadable.

Notwithstanding these grave shortcomings, such reprints are often prohibitively expensive, so adding insult to injury whilst providing a jolly good income for the publisher! The latter is usually a 'one-man-band' whose sole interest is in making a fast buck from the unsuspecting.

The only way to be sure you are not paying good money for waste paper is to buy the specific edition we recommend, or if that is not possible, contact the publisher or seller to make sure that the book they are selling is an exact facsimile of the original with no errors or omissions.

We have indicated below where to obtain the occult books we have reviewed, but this information is subject to change as titles go in and out of print and/or stock and web links are updated. In most cases a web search will return results from various sellers, and it is also worthwhile contacting booksellers directly.

Don't rely on booksellers' online lists of titles in stock as these are often out-of-date. Do try charity shops, as these often stock rare or unusual books at bargain prices. You will find a short list of booksellers specialising in occult books in the UK and some in the USA below.

Occult booksellers and publishers

Whilst we try to keep this list up-to-date, these websites may become unavailable at any time

Abe books is a major seller of second-hand books but delivery can be slow and customer service rather poor.

Atlantis Bookshop is London's oldest independent occult bookseller established in 1922. Unfortunately, they now seem to focus mainly on books about black magic and witchcraft, do not list their current stock, and provide no search facilities.

Magis Books—mail-order bookseller based in Leicestershire, in the UK. Although their website is awkward and frustrating to use, it does list their current stock and provides a search facility by title, author and category.

Treadwell's Books located in Bloomsbury, in London, sells books on occultism, mythology, folklore and religion. Like the Atlantis Bookshop, Treadwell's favour books on witchcraft and black magic rather than the Ancient Wisdom and Occult Truth.

Courtyard Books based in Glastonbury, sells esoteric and occult books including fine, limited edition titles in hardcover from small publishers and private presses. Their website is easy to use with a good search facility.

Watkins Books—esoteric bookshop in London, established over 100 years ago. Watkins have an extensive list of books on philosophy, metaphysics, mythology, the occult sciences, astrology, magic and mysticism, both new and second-hand, including rare and out-of-print classics.

Wizards Bookshelf—mail-order publisher and bookseller based in Michigan, USA, publishes high quality reprints of many scarce metaphysical classics, such as The Divine Pyramider of Hermes Trismegistus, Anna Kingsford and Edward Maitland's translation of The Virgin of the World, On the Mysteries of the Egyptians, Chaldeans and Assyrians by Iamblichus, and many of the books referred to by H. P. Blavatsky in her master-work, The Secret Doctrine.

Parker Publishing Metaphysical & Healing Books.

This site is dedicated to Parker Publishing, from the late 1960's to the late 1980's Parker Publishing offered a fantastic selection of metaphysical books, all in their own unique style. This is a Fan Club for everything Parker Publishing. Little is known about the activities of this publisher. They published hundreds of books on metaphysics, healing, and many other non-fiction subject matter. With the major changes in the publishing industry Parker was sold and became part of many other publishing companies and slowly faded out of business. None of their books are in print today and few have ever been reprinted in general. The classic texts everyone loves are slowly disappearing for good. This Fan Club hopes to serve as a meeting place for all those interested in Parker Publishing.

The Fan Club would like to assist in getting all the Parker Books republished. There still is a great question as to whom owns the rights to the Parker books. Most of the authors are now dead and who owns the publishing rights is in great question, since the numerous publishers that once offered the books are all now out of business and sold off to other companies. None of the original authors republished their books in over 30 years. With the New Age of Digital Publishing, books can be republished almost instantly in many media formats. The authors being from the "old school" may not understand this.

The Fan Club

Needs Your Help

Everything Parker

on this Site is Free

This Fan Club is all about FREE. Everything directly related to Parker Publishing on this site is offered at no cost. This site is not a business, we may offer a few related books to assist in fund raising but, this site is about keeping Parker Publishing a live and accessible to fans for free. The high cost of some Parker titles has greatly limited public access to these fine books. The Fan Club feels this is a great injustice to the public and will offer links whenever possible to free editions online. Parker Books are offered online on many sites for free. The Fan Club will publish these links for everyone to benefit from, not just those that can afford hundreds of dollars for rare books.

Mindset : The New Psychology of Success
Carol Dweck, Carol S. Dweck

Mindset is one of those rare books that can help you make positive changes in your life and at the same time see the world in a new way. A leading expert in motivation and personality psychology, Carol Dweck has discovered in more than twenty years of research that our mindset is not a minor personality quirk: it creates our whole mental world. It explains how we become optimistic or pessimistic. It shapes our goals, our attitude toward work and relationships, and how we raise our kids, ultimately predicting whether or not we will fulfill our potential. Dweck has found that everyone has one of two basic mindsets. If you have the fixed mindset, you believe that your talents and abilities are set in stone—either you have them or you don't. You must prove yourself over and over, trying to look smart and talented at all costs. This is the path of stagnation. If you have a growth mindset, however, you know that talents can be developed and that great abilities are built over time. This is the path of opportunity—and success. Dweck demonstrates that mindset unfolds in childhood and adulthood and drives every aspect of our lives, from work to sports, from relationships to parenting. She reveals how creative geniuses in all fields—music, literature, science, sports, business—apply the growth mindset to achieve results. Perhaps even more important, she shows us how we can change our mindset at any stage of life to achieve true success and fulfillment. She looks across a broad...Read more...

The Mountain Is You : Transforming Self-Sabotage Into Self- Ma stery

Brianna Wiest

"This is a book about self-sabotage. Why we do it, when we do it, and how to stop doing it-for good. Coexisting but conflicting needs create self-sabotaging behaviors. This is why we resist efforts to change, often until they feel completely futile. But by extracting crucial insight from our most damaging habits, building emotional intelligence by better understanding our brains and bodies, releasing past experiences at a cellular level, and learning to act as our highest potential future selves, we can step out of our own way and into our potential. For centuries, the mountain has been used as a metaphor for the big challenges we face, especially ones that seem impossible to overcome. To scale our mountains, we actually have to do the deep internal work of excavating trauma, building resilience, and adjusting how we show up for the climb. In the end, it is not the mountain we master, but ourselves."-- Provided by publisherRead more...

First Time Caller

B. K. Borison

A hopeless romantic meets a jaded radio host in this cozy, Sleepless in Seattle–inspired love story from beloved author B.K. Borison. Aiden Valentine has a secret: he’s fallen out of love with love. And as the host of Baltimore’s romance hotline, that’s a bit of a problem. But when a young girl calls in to the station asking for dating advice for her mom, the interview goes viral, thrusting Aiden and Heartstrings into the limelight. Lucie Stone thought she was doing just fine. She has a good job; an incredible family; and a smart, slightly devious kid. But when all of Baltimore is suddenly scrutinizing her love life—or lack thereof—she begins to question if she’s as happy as she believed. Maybe a little more romance wouldn’t be such a bad thing. Everyone wants Lucie to find her happy ending...even the handsome, temperamental man calling the shots. But when sparks start to fly behind the scenes, Lucie must make the final decision between the radio-sponsored happily ever after or the man in the headphones next to her.Read more...

I Who Have Never Known Men

Jacqueline Harman, Ros Schwartz (Translation), Sophie Mackintosh (Afterword)

WITH A NEW INTRODUCTION BY SOPHIE MACKINTOSH, MAN BOOKER PRIZE-LONGLISTED AUTHOR OF THE WATER CURE “It is surprising that a book with the psychological detail of a nightmare elicits in the reader feelings of such

profound intensity.” — Le Monde “The delirium of *I Who Have Never Known Men* suggests the work of a feminine Kafka.” — Le Nouvel Observateur “For a very long time, the days went by, each just like the day before, then I began to think, & everything changed.” Deep underground, 39 women live imprisoned in a cage. Watched over by guards, the women have no memory of how they got there, no notion of time, & only vague recollection of their lives before. As the burn of electric light merges day into night & numberless years pass, a young girl - the fortieth prisoner - sits alone & outcast in the corner. Soon she will show herself to be the key to the others' escape & survival in the strange world that awaits them above ground. °°° Jacqueline Harpman was born in Etterbeek, Belgium, in 1929, & fled to Casablanca with her family during WWII. Informed by her background as a psychoanalyst & her youth in exile, *I Who Have Never Known Men* is a haunting, heartbreaking post-apocalyptic novel of female friendship & intimacy, & the lengths people will go to maintain their humanity in the face of devastation. Back in print for the first time since 1997, Harpman's modern classic is an important addition to the growing canon of feminist speculative literature. Ros Schwartz is an...[Read more...](#)

Lights Out: A Dark Stalker Rom-Com
Navessa Allen

“I don’t need another kink.” That thought pops into my head whenever I pull up my favorite social media app, but alas, every time I scroll, I learn something new about myself, and another one is born. And yes, I know I’m responsible for what the algorithm shows me, but I’m trying to ignore that fact. Lately, my feed has been dominated by masked men. I’ve favorited videos with them dressed in full cosplay, decked out in futuristic military apparel, and wrapped up like ghouls. But more than anything else, my FYP is filled with shirtless men wearing ghost masks. Bonus points if they’re heavily tattooed, wielding a knife, or covered in fake blood. At night, I dream about being chased by them, of them catching me and doing deliciously dark things to my more than willing body. I never could have guessed that by sending one drunken text, those dreams would become my new reality.[Read more...](#)

Boundaries Updated and Expanded Edition: When to Say Yes, How to Say No To Take Control of Your Life
Dr. Henry Cloud, Dr. John Townsend

Boundaries is the book that's helped over 2 million people learn when to say yes and know how to say no in order to take control of their lives. Does your life feel like it's out of control? Perhaps you feel like you have to say yes to everyone's requests. Maybe you find yourself readily taking responsibility for others' feelings and problems. Or

perhaps you focus so much on being loving and unselfish that you've forgotten your own limits and limitations. Or maybe it's all of the above. In the New York Times bestseller, *Boundaries*, Drs. Henry Cloud and John Townsend help you learn when to say yes and know how to say no in order to take control of your life and set healthy, biblical boundaries with your spouse, children, friends, parents, co-workers, and even yourself. Now updated and expanded for the digital age, this book continues to help millions of people around the world answer these tough questions: Can I set limits and still be a loving person? What are legitimate boundaries? How do I effectively manage my digital life so that it doesn't control me? What if someone is upset or hurt by my boundaries? How do I answer someone who wants my time, love, energy, or money? Why do I feel guilty or afraid when I consider setting boundaries? How do boundaries relate to mutual submission within marriage? Aren't boundaries selfish? You don't have to let your life spiral out of control. Discover how boundaries make life better today Plus, check out *Boundaries* family collection...[Read more...](#)

Man's Search for Meaning

Viktor Emil Frankl

A book for finding purpose and strength in times of great despair, the international best-seller is still just as relevant today as when it was first published. "This is a book I reread a lot . . . it gives me hope . . . it gives me a sense of strength." — Anderson Cooper, Anderson Cooper 360/CNN This seminal book, which has been called "one of the outstanding contributions to psychological thought" by Carl Rogers and "one of the great books of our time" by Harold Kushner, has been translated into more than fifty languages and sold over sixteen million copies. "An enduring work of survival literature," according to the New York Times, Viktor Frankl's riveting account of his time in the Nazi concentration camps, and his insightful exploration of the human will to find meaning in spite of the worst adversity, has offered solace and guidance to generations of readers since it was first published in 1946. At the heart of Frankl's theory of logotherapy (from the Greek word for "meaning") is a conviction that the primary human drive is not pleasure, as Freud maintained, but rather the discovery and pursuit of what the individual finds meaningful. Today, as new generations face new challenges and an ever more complex and uncertain world, Frankl's classic work continues to inspire us all to find significance in the very act of living, in spite of all obstacles.[Read more...](#)

The Hermetics Resource Site was established to provide online resources to a growing community of individuals seeking answers to age old questions, as well as those who

need study material to aid their inner quest.

Throughout history a body of knowledge has existed providing a philosophy of life that is attuned to the true nature of things with clear instructions and methods for self-realization and transformation. Hermeticism, Hermetism and Hermetics is one name for this body of knowledge.

Essentially, Hermeticism is the ancient philosophy, theory and practice of the inner secrets of man, nature and spirit. Its origins are lost in the mists of prehistory. Its revivals in the Hellenistic, Renaissance and modern times have often been pale reflections of its real nature. Though much of its records are lost, it has re-risen from the flames like the Phoenix under many different guises. Fragments of this great primal teaching are distributed throughout the world.

The ancients have called Hermes Trismegistus, its legendary founder, the originator of writing, the sciences and arts, as well as the patron of esoteric teachings, alchemy, astrology and theurgy. He has been equated as one and the same as Tehuti, Thoth, Enoch and Idris, among many other spiritual teachers at the dawn of human history.

Hermetic teachings have been transmitted through a long line of masters and teachers throughout the ages. Its survival throughout the ages has been accomplished by means of guardians of the holy mysteries. These guardians have emerged from time to time to disclose precious fragments of these timeless teachings.

Sir John Woodroffe also known by his pseudonym
Sir Author Avalon (1865–1936)

Sir John George Woodroffe (December 15, 1865 January 18, 1936, also known by his pseudonym Arthur Avalon, was a British Orientalist whose work helped to create a deep wide interest in the West in Hindu philosophy and Yogic practices. A former British attorney and high court judge living in Calcutta India in the late 1800's and early 1900's who studied and practice yoga under a Yogi Tantric Master (Sibchandra Vidarnava) in a Hindu monastery that specialized in Tantra Sastra and Mantra Sastra. His book The Serpent Power was a very rare book when it was published in 1919 and is still a rare book some 94 years later. The Yogi Master Dr. George King stated that "The Serpent Power" book has more deeper and sacred knowledge than "The Secret Doctrines" and it would take you 20 years just too truly understand a few pages of this book.

Helen P. Blavatsky (August 12, 1831 – May 8, 1891).

An advance Yogi Master, she came on the scene in the mid 1800's and was instructed by the Great White Brotherhood, the Spiritual Hierarchy of Earth to setup the Theosophical Society. About 20 to 30 years after founding the Theosophical Society just in United States alone they had reportedly over 100,000 followers. Helen P. Blavatsky is well known for her books 'The Secret Doctrines, and ISIS Unveiled. She was also known for her extraordinary demonstrations of psychic abilities. Blavatsky helped found the Theosophical Society in New York City in 1875 with the motto, "There is no Religion higher than Truth". Its other principal founding members include Henry Steel Olcott (1832–1907), and William Quan Judge (1851–1896). After several changes and iterations its declared objectives became the following:

- 1.To form a nucleus of the Universal Brotherhood of Humanity, without distinction of race, creed, sex, caste, or color.
- 2.To encourage the study of Comparative Religion, Philosophy, and Science.
- 3.To investigate the unexplained laws of Nature and the powers latent in man.

Annie Besant (October 1, 1847 - September 20, 1933)

A very advance Student of H.P. Blavatsky, a former well known activist for women's rights when it came to labor, civil and the right to vote. Annie Besant was an extraordinary orator, she was known for her ability to lecture on vast subjects and convey complicated subject lines in a simple to understand manner. Besant was a prolific writer and a powerful orator. In 1889, she was asked to write a review for the Pall Mall Gazette on The Secret Doctrine, a book by H.P. Blavatsky. After reading it, she sought an interview with its author, meeting Blavatsky in Paris. In this way she was converted to Theosophy. Besant's intellectual journey had always involved a spiritual dimension, a quest for transformation of the whole person. As her interest in Theosophy deepened, she allowed her membership of the Fabian Society to lapse (1890) and broke her links with the Marxists. When Blavatsky died in 1891, Besant was left as one of the leading figures in Theosophy and in 1893 she represented it at the Chicago World Fair.

In 1893, soon after becoming a member of the Theosophical Society she went to India for the first time. After a dispute the American section split away into an independent organization. The original Society, then led by Henry Steel Olcott and Besant, is today based in Chennai, India, and is known as the Theosophical Society Adyar. Following the split Besant devoted much of her energy not only to the Society, but also to India's freedom and progress. Besant Nagar, a neighborhood near the Theosophical Society in Chennai, is named in her honor.

Mabel Collins (September 9, 1851 – March 31, 1927)

Mabel's name pops up again and again in theosophical histories. Yet no one knew much about her – in fact I have seen it written that her life was a complete mystery. Like many of these mysteries the information is there as soon as you begin to look. Mabel Collins was an instrumental figure in early theosophy but owing to the disputes she was involved in she has more or less disappeared from the history books. She was an author, a medium, a theosophist, the lover of Jack the Ripper, a fashion writer, an anti vivisection campaigner...the list is a lot longer than that of most people's achievements. Mabel Collins was a clairvoyant and author of romance novels, whose theosophical fame started with *Light on the Path*, a book written in trance and still her most well selling work. After having been expelled from the Theosophical Society by H.P. Blavatsky for unknown reasons, she spent a lot of energy fighting for animal rights.

The Books by Mabel Collins included the following:

- (1) *Light on the Path* (1885) (Very advance teachings made for meditation)
- (2) *The Blossom and the Fruit* (1888)
- (3) *The Idyll of the White Lotus* (1890)
- (4) *Morial the Mahatma* (1892)
- (5) *Suggestion* (1892)
- (6) *The Star Sapphire* (1896)
- (7) *The Story of Sensa* (1913)
- (8) *Through the Gates of Gold*

Swami Rama Prasad Released a Secret Upanishad to the West in 1893

Rama Prasad a Yogi Adept in the late 1890's who realize it was time to translate and release certain ancient teachings regarding the mystic science of the Maha-bhutas (cosmic elements), the 5 major pranas (cosmic energies radiating through and from the

Sun to help our environment), tattvic rays (the 360 modes of vibrations that radiates through and from the Sun to help build our environment) and the nadic vibrations the holy sound vibration that is repeated by solar logi in order to trigger and sustain all life in the Solar system including our world the Mother Earth. The essays written by the Yogi Rama Prasad which came to be this book called "Nature Finer Forces" describes the five major pranas that radiates from the Mighty Sun of our Solar System every thirty-two minutes through the Holy Word being issued by this great Celestial Being (or Maha-Bindu) called the Mighty Sun.

Swami Vivekananda (January 12, 1863–July 4, 1902).

A very advance Yogi Adept, born Narendranath Dutta (Bengali :) was the chief disciple of the 19th century mystic Sri Ramakrishna Paramahansa and the founder of Ramakrishna Mission. He is considered a key figure in the introduction of Hindu philosophies of Vedanta and Yoga in Europe and America and is also credited with raising interfaith awareness, bringing Hinduism to the status of a major world religion during the end of the 19th century. Vivekananda is considered to be a major force in the revival of Hinduism in modern India. He is perhaps best known for his inspiring speech beginning with "Sisters and Brothers of America", through which he introduced Hinduism at the Parliament of the World's Religions at Chicago in 1893. Swami Vivekananda was born in an aristocratic Bengali family of Calcutta in 1863. Swami's parents influenced his thinking—the father by his rational mind and the mother by her religious temperament. From his childhood, he showed inclination towards spirituality and God realization. While searching for a man who could directly demonstrate the reality of God, he came to Ramakrishna and became his disciple. As a guru, Ramakrishna taught him Advaita Vedanta (non-dualism) and that all religions are true, and service to man was the most effective worship of God. After the death of his Guru, Vivekananda became a wandering monk, touring the Indian subcontinent and getting first-hand knowledge of India's condition. He later sailed to Chicago and represented India as a delegate in the 1893 Parliament of World Religions. An eloquent speaker, Vivekananda was invited to several forums in the United States and spoke at universities and clubs. He conducted hundreds of public and private lectures and classes, disseminating Vedanta and Yoga in America, England and a few other countries in Europe. He also established the Vedanta societies in America and England.

Alice A. Bailey (June 16, 1880 – December 15, 1949)

A very advance student of the occult sciences that was a former staff member of the theosophical society who was original taught and trained by two elderly blind women who were devoted disciples of Helen P. Blavatsky. After many years of studying and practicing the occult sciences Alice A. Bailey was contacted telepathically by a Tibetan Master who happen to be a personally student of an ascended Master that had physically contact her at age 18 giving her a little revelation an encouragement of her future mission. This Tibetan Master of yoga informed her that he who like her to be the voice for him in the western world through a telepathic connection he develop with her. His goal was to make sure that certain ancient teachings of the Tibetans are release to the world. "In the space which thought creates around itself there is no love. This space divides man from man, and in it is all the becoming, the battle of life, the agony and fear. Meditation is the ending of this space, the ending of the me. Then relationship has quite a different meaning, for in that space which is not made by thought, the other does not exist, for you do not exist. Meditation then is not the pursuit of some vision, however sanctified by tradition. Rather it is the endless space where thought cannot enter. To us, the little space made by thought around itself, which is the me, is extremely important, for this is all the mind knows, identifying itself with everything that is in that space. And the fear of not being is born in that space. But in meditation, when this is understood, the mind can enter into a dimension of space where action is inaction. We do not know what love is, for in the space made by thought around itself as the me, love is the conflict of the me and the not-me. This conflict, this torture, is not love. Thought is the very denial of love, and it cannot enter into that space where the me is not. In that space is the benediction which man seeks and cannot find. He seeks it within the frontiers of thought, and thought destroys the ecstasy of this benediction."

There may be a lot of things wrong with our modern age (like a LOT of things), but I do firmly believe that we're living in a golden age when it comes to access to occult and esoteric texts

Yeah but better start downloading stuff asap because the attacks on privacy of internet users are crazy lately.

23

I've been downloading like a crazy person, for that exact reason. You never know, someone might just decide to get rid of all that good information, and ban that knowledge.

I might not ever be able to read all of my occult pdf's (realistically, never), but at least I'll

have it if someone else would like to copy and learn for themselves, especially if the information has been deleted.

From what I have heard does Adderall have the opposite effect on people without ADHD.

Family Guy made an episode about it, where Brian actually got constructive.

Next up is doing OCR(optical character recognition) to turn these images into text files that will be significantly smaller for easier downloads. It's got to process 1.8TB of images on my little M4 MacBook Air, so it's going to take awhile.

I'm putting together a torrent of all of the books in the highest quality images available. It'll be a few more days of downloading. I'm trying to do it slow enough that they don't ban my IP or change their API key.

after that is complete, and the torrent is available, can you automate the AI translation?

Is there no way to get books for free anymore?

Im from the south, the bible belt and none of my libraries have books on witchcraft, mythology, deities or anything of the like. I prefer to read books rather than reading internet articles because in my opinion its a lot easier to find and research the author than on internet articles. Call me old fashioned and a book nerd, but i also am in between jobs and going to school so literally not much money. Is there no other way to get this knowledge for free but online articles? Is it selfish to even be asking this question because I definitely want to support the authors i just do not have money and i am in no way shaming them for selling their work for the money they deserve. I am just so frustrated and hitting a brick wall at this point.

I like this one as an alternative to sacred texts and this one has books and images and a few other niche bits & bobs. Though obviously subject/school specific Thelemapedia is chock-full of publications, text extracts and around 1000 magick and occult related articles.

Put in your location, search for what you need, and it will give you the libraries that have it. Then go through an interlibrary loan or reach out to whatever university might have it.

Library genesis has basically every occult book that I've searched for. I don't think you'll find physical copies for free or loan.. a lot of occult books are very expensive and the types of people that want to check them out are.. well, you know.

Yes and the internet archive was mentioned already but I would like to double down on that because it's collection of occult, philosophy, and religious content is vast, not just the books section but the video as well. There's also the option of buying harddrives with content already downloaded on them, transferring the PDFs or videos to your cell phone, and using a text to speech app to listen to them. If you are blessed with the ability to listen to headphones at work, or if you have a calm home you can spend hours discovering and learning. I work 12 hours shifts 5-6 days a week so lots of time to learn.

People have already given suggestions, but I'd recommend checking out the internet archive. They have some of Crowley's works and some other occultic books like books on Kabbalah and spell work too. I can't promise too much as I've only gone through bits of it, but there's some useful stuff there to look for.

The Henry S. Olcott Memorial Library run by the Theosophical Society in Wheaton Illinois is an amazing occult resource and open to the public. They have a mail borrower program that is free if you are a member or 40 bucks a year if you are a non member. I believe you have to pay for shipping but because of the USPS media mailer program it is I believe de minimis.

<https://www.theosophical.org/library>

So free books, not free library membership and shipping.

also if you are okay with ebooks <https://www.globalgreybooks.com/index.html> has a lot of public domain occult stuff.

it's not the best but barnes & noble usually has a decent occult-ish section which pairs well with their religion, philosophy, etc areas. was a good jumping off point for my own research & i actually still have a crazy detailed grimoire with all the info that i couldn't write on the pages. the vibe there is a plus so 10/10 recommend lol that store was like my sanctuary at one point

There's an app called Hoopla and you can connect a library card to it and you then download them for free

<https://apps.apple.com/app/id580643740>

<https://play.google.com/store/apps/details?id=com.hoopladigital.android&hl=en&gl=US>

There's also a pdf download site, where you can find almost anything, and I found it to be safe

Calendar

Days and Dates

Dates and times are recorded using the typical notation of Astrology, indicating the positions of the Sun and Moon in the tropical zodiac. The day of the week is recorded in Latin.

Precision

The more precisely the solar and lunar positions are noted, the more precisely the date and time will be known. The Moon takes about 2.3 days to move through a zodiacal sign. Simply recording the signs that the Sun and Moon are in will therefore only describe a period of slightly more than two standard days. Recording the day of the

week eliminates the possibility of uncertainty about the day referred to. In addition, more precision can be had by indicating the degrees, minutes, and seconds of the position of the Sun and Moon.

Symbolism

The planetary assignment of days of the week and the tracking of the sun and moon through the zodiac all tap into a great wealth of symbolism. Events may be scheduled according to their symbolic relevance: for example, the installation of a lodgemaster on Dies Jovii (the day of Jupiter).

Examples

The following are examples of accepted ways to record the same Thelemic date, beginning with the most precise.

Sol 22°13'5" Taurus, Luna 29°6'19" Pisces, dies Saturnii

Sol 22°13' Taurus, Luna 29°6' Pisces, dies Saturnii

Sol 22° Taurus, Luna 29° Pisces, dies Saturnii

Sol in Taurus, Luna in Pisces, dies Saturnii

Sol in Taurus, Luna in Pisces

I managed to grab a bunch of stuff from Concen.org before it suddenly denied me access. Specifically stuff from Theoccult.click. I'd love an invite to complete the set. In the meantime if anyone needs some files I'm happy to share. I have roughly 687GB worth of stuff so far.

Pirating books

I've recently gotten the thought that maybe occult authors curse their books so the rituals in them won't work if the book is pirated.

I've heard the Gallery of Magick have done this with some of their books but then again people are saying the magick works anyway and some are saying it doesn't if they're pirated.

But what I am mainly worried about is if this is the case with Modern Magick by Donald Michael Kraig.

I have already started going through lesson 1 and now I am worried I will have to buy the physical book and restart the lesson if I want the magick to work. Is this the case?

If you're afraid it won't work without the physical book then it won't. If you're not, it'll work fine.

Having said that, no one ever got rich off of writing occult books. When/if you can afford it, you should buy the book if the author is still alive so they can continue to write more. IMHO, the dead can look after themselves or accept offerings like any other spirit. They don't need cash.

Yes I do plan on buying physical copies of every PDF I have.

I prefer physical books, especially if I can get it hardcover.

PDFs are just quick and easy to acquire and I can store them all on my phone so ease of transport.

Protip: Magick consists of illusions to enslave the Will. Pick your illusions, and attribute effectiveness only to systems and phenomena beneficial to you and your work.

Don't be superstitious.

I don't care if people pirate my books, for instance, but there are definitely people who put curses or similar enchantments on their books.

Modern Magick gets pirated all of the time to no ill effect. I wouldn't worry about it.

I've known many occultists who torrent entire libraries of occult pdfs. If this were a real concern, I'd definitely have found out by now, lol.

Maybe if you're calling upon their own spirits they created or it's part of an organized tradition, it would be best not to use what's in the book, but you don't need to worry about using the techniques or universal aspects of it.

Modern magick is totally fine to do anything in it. The guy's been dead for a while anyways, not like he would get any of the earnings from it.

In general I'd say if you find the information super helpful in a pirated book, it's good to support their work in some way, occult authors don't usually make a lot from their work.

Budget-Pattern1314

•

The better question is, why would the author curse the book ? For I will not deny others from seeking wisdom and grace

4

[deleted]

•

1y ago

However I get books I often try to pay back in some way even if it's not via money. I will leave reviews on Amazon etc for books I think are helpful. I used to do a book review blog until my health got really sucky. I sometimes mention a book I am reading and why on social media.

I try to direct people towards books that I like and find truly useful in my magickal practice. That's helpful too and I've actually had authors send me copies in return for reading them and reviewing them.

Nobody here has commented about the strategies of the actual curses contained in

these books.

The issue, as I understand it, is if you try to profit from their work, essentially representing as your own, your finances will be affected.

This is an issue of respect. And the magick will affect you if you were actually causing harm to them. Chances are pirating their book isn't causing direct harm to them.

To answer your question, I doubt you need to buy the book and repeat the rituals. Express some gratitude. Do the magick. Buy the book if the magick works.

Bullshit. You realize that pretty much all grimoires are compilations of stolen knowledge, right? Take, for instance, the Lemegeton, which is a compilation of ancient Sumerian knowledge stolen from Jewish Kabbalistic practice. This information, which used to be available only to a select few within their tradition, has been repackaged and simplified for broader audiences. None of these cultures are ours; they are ancient cultures, and their magic is a manifestation of ancient, rich traditions. The truth of magic is that you can't take another's anyway. You can learn some tips, tricks, and art forms from others, but in the end, magic is a manifestation of your intentions and is specifically reciprocal to your psychology—your perception of it. You're supposed to make your own magic by studying the processes of divining and rituals.

This is where the problem with books like "Modern Magick" by Donald Michael Kraig comes in. While popular, it's a simplified and somewhat diluted introduction to the occult. Crafted for a broad audience, it sacrifices depth and complexity for accessibility. This is not necessarily a bad thing for beginners, but it's not the book that will take you into the deeper, more powerful realms of magic.

If you're serious about magic, following the right-hand path as laid out in Kraig's book might lead you to the superficial aspects of the craft. It's a path more focused on adherence to order, structure, and often a kind of spiritual safety net that avoids the darker, more challenging aspects of true magical work. In many ways, it is the "fast food" of the occult: it's convenient, it's easy to digest, but it lacks the substance and richness of a meal that's been carefully and thoughtfully prepared.

The right-hand path, by its nature, tends to avoid the shadow work that is so critical to true personal and magical growth. It can leave you with a false sense of security, a belief that you are progressing when, in fact, you're merely skimming the surface. The rituals and practices it promotes may be effective in a limited sense, but they're not likely to lead to the profound transformations that are the hallmark of true magic.

As for the idea that pirated copies of such books might be cursed or ineffective, that's a red herring. The effectiveness of magic is not about the book or the source from which you obtained it; it's about the depth of your understanding, the strength of your intent, and your ability to apply the knowledge effectively. If you're relying on "Modern Magick" to guide you, be aware that you're dealing with a tool that's more about surface-level practices than deep, transformative magic.

You may use other people's magic from well-established traditions because they are a collective of many people's magic compiled over centuries. Some will resonate with you, while others will not. For instance, I work very well with the pentacles of Mars, Venus, and Mercury because that is my birth rite. I also come from an ancient bloodline of holy men who were sorcerers that date back to the dawn of civilization in Mesopotamia. Because of this, I can use nearly anyone's magic because my genetics are the root of many bloodlines. That means that pretty much everyone's magic is mine as well.

However, if you're truly serious about walking the path of magic, you will eventually need to move beyond the watered-down approaches of books like "Modern Magick" and delve into more authentic, traditional sources. Study the grimoires that have stood the test of time, the ones that demand more from you as a practitioner. These are the works that don't just tell you what to do—they force you to confront yourself, your fears, your desires, and your place in the cosmos.

True magic isn't about following a step-by-step guide; it's about forging your own path, guided by the wisdom of those who have come before but ultimately defined by your own experiences, trials, and insights. If you feel that Kraig's book is the right place to start, go ahead—but be prepared to outgrow it quickly if you're genuinely committed to the craft.

I wouldn't worry about it too much. While I think it's a good practice to purchase physical copies of books, I don't believe it to be necessary. I prefer to support authors and publishers who are worth supporting. There will invariably be something that you'd like to read, but is out of reach, be it due to being out of print, or just prohibitively expensive.

In the case of Andrew Chumbley's work, I own very little. What's available is obscenely expensive, and I just don't feel like giving my money to Xoanan. So, I've pirated pretty much his entire library. Chumbley, Th Cultus Sabbati, and Xoanan would love it if people believed that pirating their works would leave you cursed.

Warning about /r/psychic - mod weirdness regarding how to identify frauds

meta

I feel like this and other communities should know about this. During a question there Where does one find a good psychic, I posted comments linking to a long-form article on how cold-reading works, and how to spot if you're being subject to someone well versed in this stage-magic form.

I also linked that there was also recently a PSA here about 'not buying demon pact spells for \$9000'. Similar idea, since a lot of cold-reader types will also sell spells to fix the ailments they 'discover' during your cold-read.

The fishy part: multiple times, mods silently removed my posts with no explanation. Reaching out also lead to no responses as to why.

You can see one of them via reveddit.

After conveying with dear witchy and occult friends about this, we had the idea that perhaps mods of r/psychic are doing cold reading tactics, and removal of this post was so others couldn't learn to be informed of these types of fraudulent actions.

There's something definitely "weird" about this situation. So, at least, this can be a warning to be aware.

This is happening at r/psychicdevelopment as well.

The only people who seem to engage are the ones who seem desperate. Reporting these posts does nothing to have them removed.

As a clairvoyant, I don't need anyone to do my readings for me but apparently lots of people are falling for these scams so yikes to that.

Ugh, that is terrible...

I did do some professional (paid) tarot. I had a client whom, after being asked the

similar desperation questions, refused further readings of those questions and gave back her money.

I don't mind helping people, but I won't sit back collecting \$\$\$\$ because of what amounts to desperation. Even if they paid someone else for it. I won't be a party to that.

Every single human being on this planet has the potential to unlock their clairvoyant abilities, friend. I'm sure it does apply to you.

I always knew things, felt things, saw things, heard things... but earlier this year, I was given the number of a clairvoyant reader by a friend. I googled her and since she had no online "psychic" presence, just her realtor career stuff, I figured I would book a reading and see what was up.

This lady blew me away. Insane. Never met anyone like her. She knew things that she had no way to know. Specific things. She sent me images of the things she was seeing with her mind. She saw my life, man. She's taken me to the Akashic Records, showed me past lives, helped me clear karma and cut karmic cords. I've never met her in person and we do everything over the phone.

Long story short, I have readings with her on occasion still, but she referred me to the place that she studied clairvoyance and I have been taking classes there. I start my next one tomorrow. Everything has gone fast as hell from that first reading. My abilities are exploding but it takes consistent, daily practice. It is hard. Frustrating at times and has really opened my (third) eye to how arrogant I was about my own abilities. It's been humbling to see how far I have to go still. In January, I start their two year mediumship program. Everything we learn is meditation based. It is very precise and involves very specific exercises done in a specific order. At least that is what I've experienced so far.

If you are interested in a link to the school, message me and I'll hook you up. Too many scammers on here to post in a comment. They teach teleconference classes all over the world. It's pretty neat and, I think, affordable.

If you are also interested, the book "Basic Psychic Development" by Jon Friedlander contains all the exercises I am learning so far.

I get irritated when people message me about "I have a message for you", typically it's a dm. I play along and let it draw out, just to see what they want. As they continue, I catch on that it's bs. "I need to tell you about this generational curse." 🙄 🙄

Then I tell them to go away, because I'm the only witch in my family and I know how to do my own readings tyvm. Then they leave me alone. There were quite a few recently, and I ignored them.

From my own experience with gifted people in my life. Legit psychics will never ask you a question. They don't have to.

They may be a little fuzzy trying to describe the information they're receiving. But they won't ask. It will depend on their experience. So you may need to work out what they describe.

One fellow wasn't used to using his ability for a while. And had a hard time conveying info he got from my uncle. Who eventually led him to a turtle tank our friend has. Then I figured out it was my uncle. He couldn't have just guessed why turtles would be significant. When I was a wee kid. I was nearly bitten by a big snapping turtle that had taken up residence in our pond.

But what had me confused for a while, once I knew it was my uncle every clue made perfect sense the fellow could not have guessed, was I think he presumed my uncle was the same color as me. Lol

So I think his presumption affected how he saw my uncle.

But someone with a true gift won't ask or lead you to fill in the blank.

I'd download this 45 GB torrent of occult materials

(an even larger occult torrent at 480GB is

<https://1337x.to/torrent/3800017/The-Occult-Library-v1-5-480GB/> , but the above one is plenty suitable.... unless you're hunting down very narrow works that aren't available anywhere else.)

And then, I would start reading them. It'll be slow. You'll find areas that pique your interest. And others will make you uninterested. Write down your experiences as you learn.

Some paths will have practices you can try. As you are comfortable with them, try them. Also write down your experiences here. Some may be very uncomfortable - like meditation can have some disturbing imagery.

This is a path that will likely take you 1-3 years to accomplish. And by then, you'll have a respectable understanding of many occultic systems, basics of how they work, their histories, and what paths you wish to work with.

How much do you think a demon pact is worth? If I were to sell one, \$9,000 seems pretty low considering the risk... not that I would sell or look to buy one.

Hello, Theistic Luciferian here - it is worth nothing. Would you sell a prayer? This is the same thing. Now if the customer offers something on their side, it will be between them and the Infernal Divine, the 3rd party in between can not add anything to said offer. In the end it will be up to Infernal Divine to answer or not, meaning that the person could have cut the 3rd party entirely and simply meditated on a sigil, or chanted an Enn.

Where does one find a good psychic?

Basically the title is my entire question/story. I'll continue writing because I need to push those 100 words out but if someone could let me know how they know how to pick one not being a scammer I'd be forever grateful.

Well the first thing to know, is that the influx of DM's you're going to get after posting this should probably be ignored. As a sub we recommend not replying to any unsolicited reading offers, as this is how a lot of scammers on the spirituality subs work. No good reader has to reach out for business.

Unfortunately the only way to find the right reader for you is by trial and error. Reviews can be faked, a reader who connects superbly with your best friend may not be able to read you, and cost has no bearing on a readers skills.

Unfortunately scammers are more & more common, you just have to browse this sub and the scammer subs to see it's becoming more & more popular. Just keep your wits about you and think about what you're doing. Think how much information you're giving someone (irl or online) and if you're asked to pay for anything above and beyond your pre-arranged reading fee, walk away. Any upselling of candles, crystals, rocks, spells or cleansing, walk away.

And don't be afraid to speak up if your reading doesn't resonate with you. No reader is 100% accurate 100% of the time - about 75% is good, but remember your reading is only advice. No reading comes with assurances or guarantees. And yes, we can get things wrong! But if you're 10 minutes on and NOTHING is making sense, stop your reader and tell them! A good one wants to know so they can refocus and correct their mistakes, or reschedule if for some reason they aren't connecting with you. Don't wait until the end to say it was rubbish, that just smacks of not wanting to pay.

Finally, we don't allow recommendations, reviews, promotion or advertising on this sub, but we do have a readers request and offer thread, which is exactly as it sounds! And we all readings offered through this sub must be completely free of charge, we don't even allow our readers here to ask for donations, and you're free to request from as many readers as you'd like as often as you'd like!

https://www.reddit.com/r/Psychic/comments/ylwewf/weekly_reading_offer_request_thread/?utm_source=share&utm_medium=ios_app&utm_name=iossmf

Good luck and enjoy

Well done. You said it all. I am a professional psychic (I am in no way soliciting). I just want to use that to say as someone who is both a client and a reader. There is an over saturation of illegitimate liars and thieves. So many of them ready to take your money. I would mostly stay offline for these services. It's too hard to trust. Myself has looked into brick and mortar stores. Where the psychic has cared enough to actually set up a physical business. You can go in, meet them, feel out their vibe, and schedule (if you like). I have walked in, and quickly out before. I think meeting the person face to face validates the service you should want to expect.

Thank you for your info. I've never had a reading, so I've actually been apprehensive about storefront psychics concerned about scamming. I realize scammers are everywhere though. So, how would you suggest someone scope out a psychic storefront to determine if you vibe with the reader? Is it OK to walk in and say your looking for a psychic you feel you have a connection with before scheduling a reading? And is it OK to just walk in without an appointment?

I'd heard about psychic fairs and wondered if that's a good way to find a psychic you like. I've never been to one, so is that too much energy in one place to get a good reading?

Obviously, I'm not a reader, so that might be an ignorant question. 😊 Some of the kids on 'Psychic Kids' mention being overwhelmed with many spirits reaching out to them, so it seemed plausible.

Thanks to everyone here for all the helpful suggestions!

Same ways you can make a decision to work with any trusted professional: referrals, research and intuition.

Ask anyone you feel comfortable with asking for recommendations for who they used

Do some due diligence: dig around, interview possible service providers and ask questions about their education, experience and approach

As you do 2/3, trust your vibes and let your own intuition lead you

That's what's helped me.

It depends on what you are looking for and what kind of reading you want. If you want an in person psychic you can always talk with them first before booking something and see if you like their energy. It may be harder with online ones, but often they have a website or social media account of some form you can look through and get a feel for their overall vibe and style.

You can always look at reviews if they have them but I usually take them with a grain of salt. If you find one you like, and they are in your price range, I think the only way to really know is to try them out. I am somewhat wary of those who charge extremely high or extremely low prices though.

Are you in touch with your guides? If not, start there for best results. They have probably been sending you 11:11s or feathers to catch your attention. When you are ready to see, they will bring you more and more info. Mine brought me EVERY teacher I needed to move along. Be prepared to do your own homework.

Your biggest job at this moment, based on you describing this being a life question, is to observe. Your team knows you are seeking answers. I am telling you, they will show answers to you using symbolism and synchronicities that make sense to you.

If you need a teacher or a medium, one will come to you and you will feel the connection. This will require self control and patience not to over anticipate like I did! 😂

I honestly don't even know how to start to get in touch with my guides. I've seen angel numbers everywhere most of the days. Yesterday for example I saw 10:10 on the 10th of November. I'm observing, or maybe better to say analyzing, if not over analyzing. But I just can't seem to connect the dots unfortunately.

I guess you have your answer already - but it's practically impossible for us to guarantee that you'll find a psychic in your immediate area, not knowing the area, etc. Also wanted to say, you have a psychic within you - perhaps you should think about trying to access Divine guidance in your daily life. All humans have that potential.

Cold Reading: How I Made Others Believe I Had Psychic Powers

I've always wanted to become a fortune teller's apprentice. I would have loved to peek behind the velvet curtain to see what people ask, what the psychic tells them, and how these recommendations are really made. Plus, there are great fringe benefits such as getting the upcoming lottery numbers every week.

My career took me down a different path, but I recently seized the opportunity to give psychic sessions myself. I did this using a method called cold reading, a way to make people believe you have psychic powers that includes techniques such as using social cues, making broad statements, and betting on probabilities.

Cold reading is a way to make people believe you have psychic powers that includes techniques such as using social cues, making broad statements, and betting on probabilities.

Personally, I don't believe in psychics but have an interest in social engineering (check out this video of how I owned a Fortune 500 company over the phone). I had read the book *The Full Facts Book of Cold Reading* by Ian Rowland and was itching to apply the techniques. Luckily, I work at Veracode, and our HR team didn't even twitch when I asked if I could do psychic readings as part of our biannual Hackathon (they've heard much crazier ideas, believe me).

The cold reading was fun and worked better than I expected, even if not all of my readings turned out to be true. In this blog, I'd like to share the experiment, result and some of the techniques you can try at home and at work (or to start your own psychic business).

My Psychic Experiment

I advertised my services as free psychic readings where people could hear about their career, health, relationship, and money issues — past, present and future, with predictions based on “a conjoint reading of your astrology, hands, and aura” (I made this up). I asked people to either drop by or schedule a slot by email but I didn't accept people who I knew very well personally to control for previous knowledge tainting the experiment.

I gave a total of eight readings over two days. This was more exhausting than I thought because I had to hold a meaningful conversation while processing what I saw on the other side and making a fast decision of what I would say next. I had the full spectrum of people taking me up on my service, from hardcore skeptics to firm believers.

Giving an elaborate explanation, I had every person draw some lines on an astrological chart I downloaded off Google Image Search and had them trace the outline of their hand before I started giving the reading. At the end, each respondent filled in an online survey (science!) and got a 1:1 debrief on the fact that I am not in fact psychic and that they shouldn't follow my advice (ethics!). I'm very thankful that everyone took my revelation very positively.

A version of the astrological chart I printed out and handed to people. I asked sitters to draw lines across the chart with their eyes closed and then “interpreted” the lines. This was just a prop and had nothing to do with the content of my readings.

Have you had a Reading Before?

A great way to gauge a “sitter” right from the start is to ask them if they have had a psychic reading before. I stated to everyone that what I see is not a science and not always clear to me and that I would need their help in interpreting the findings. This is a great way to prime them to provide interpretations of my sometimes vague statements.

I divide sitters into three categories: Skeptics, Maybes, and Believers. Skeptics usually have not had any readings before and were the hardest to read because they did not provide much help in terms of body language and verbal confirmations. Maybes may or may not have had readings before and were easiest to impress because they didn't have a baseline and were open to the idea of psychic powers. The Believers have had many psychic readings before (some for decades) and generally gave the best cues and feedback; one was skeptical that I had real psychic powers but open to the idea, the other one didn't believe that I had no psychic powers even after I disclosed my methods.

Rainbow Ruses based on Social Cues

I usually started out my readings with so-called rainbow ruses, which are broad statements that basically say “you are one thing but sometimes you are also the exact opposite”. Sitters will usually hear (and remember) the part that is most applicable to them. I then paired this with observations to lean more in a direction that made intuitive sense to me.

For example, one person was in a job that is usually quite formal and requires sticking to the company line. While others in her particular profession would wear a business suit, she appeared in a hoodie and had a tattoo on her forearm. My rainbow ruse for her was:

“There are some people who need rules in their lives to function, and others that are more of a free spirit. I get the sense that you are more of a free thinker, but that you can stick to the rules in your job when you have to.”

Another sitter was a sales person. Knowing that sales is a role that is compensated partially by commission, sales people are usually more comfortable with risk. My rainbow ruse for this person was:

“You are comfortable assessing and accepting risk in your life. You weigh the pros and cons of risk and then make a decision. However, when you think about other people in your family and social circles, you are more comfortable with risk than most others.”

One person has a technical role and was clearly an introvert. My rainbow ruse for this person was:

“Some people prefer to hash things out in conversations, but I get the sense that you

find these tedious and unproductive. While you will get input from others, you'd much rather read up on a topic, find some peace and quiet and figure things out for yourself."

You get the picture. While this was quite obvious to me as a keen observer, it wasn't all that obvious to the sitters that they were broadcasting a lot of these signals. If you'd like to give these a try, observe the following and come up with your own rainbow ruses:

Social harmonizers are soft spoken, friendly, and wear earthy tones
Job, thinking style, or clothing that suggests scientific or artistic outlook on life
Optimist/pessimist statements, check also for dimples or frown lines
Fitness level (does the person look like they work out every day, are overweight, etc.)
Clothing and jewelry communicate a lot, such as fashion consciousness, status symbols
Especially when giving both extremes of a rainbow ruse in the beginning of the statement, I paid close attention to the body language, particularly nodding, smiling, and micro expressions. These gave me valuable cues that I used to pivot on the spot.

As I chained several of these rainbow ruses, I made sure to touch on several of the following CHARM topics:

Career
Health
Ambitions
Relationships
Money
Someone Significant to You Called Jessica

Next I moved on to things that are more specific but based on probabilities. I asked sitters to write their date of birth on the astrological chart, so I knew their year of birth. I had previously looked up the most common names for babies in each decade. For the United States, these are:

- 1960s: Lisa, Mary, Susan, Michael, David, John
- 1970s: Jennifer, Amy, Melissa, Michael, Christopher, Jason
- 1980s: Jessica, Jennifer, Amanda, Michael, Christopher, Matthew
- 1990s: Jessica, Ashley, Jennifer, Michael, Christopher, Matthew

Assuming that most people know more people of the same age and gender, I picked a name of the same gender of the sitter with their birth year decade. Then, I made roughly the following statement:

"I get a strong sense of someone significant in your life. It's not quite clear, but I see a name starting with a J. It's someone you know well but haven't been in touch with for a while. I know you've interacted on social occasions. You haven't been in touch for a while but have thought about reaching out. I see a Jess, or Jessica, or similar. Tell me what relationship this person has to you."

This worked pretty well with people who were Maybes and Believers. However, I ran into issues with two Skeptics who also grew up outside the United States so my most common names did not apply to their social circles.

One rule with psychic readings is that a fortune teller can never be wrong. For people who adamantly said that there was no Jess or Jessica in their life, I simply did a time shift:

"I get the strong sense that this Jessica has a very important, positive influence on your life. If this person hasn't come along yet, please look out for her in the future to make sure that you don't miss her."

Accidents Involving Water

I took a leap of faith on one cold reading method that suggested that most people have had an accident in their childhood involving water. This sounded oddly specific to me but I tried it out. Here is roughly how I phrased it:

"It's not quite clear to me, but I see something, probably in your childhood, an accident involving water. What does this mean to you?"

Not expecting much at all, I got a hit about 50% of the time. The first answer I got from a sitter, who turned pale after my statement, was unbelievable and actually sent chills down my spine, to the point that I was not comfortable digging deeper:

"Actually, there was something. During my childhood, one family had a child that drowned in the pool. They took me in to live with them after that."

Others were less dramatic but still interesting:

"When I was 2, I fell into a river and almost drowned."

"I was on a row boat with my mother once and fell overboard. I had a life preserver on, and my mother pulled me in straight away. I swallowed a lot of water and got quite scared."

If people insisted that there was no accident involving water, I first tried to broaden (bath

tub, slipped on ice) and then pivoted:

“You were very young, so it’s possible that you don’t remember. Make sure to ask your parents about this accident.”

A House with the Digit 2 in the Street Number

One would think that the chance to have the digit 2 in the street number is about one in ten, but it’s actually much more likely. Many streets are short and don’t go much higher than the 30s. If you phrase it vaguely enough, you can expand the search to any house of significance, including the childhood home, current residence, or a friend’s place. Again, I got a hit in about 50% or more of cases with a statement like this one:

“I’m seeing a house. It’s not quite clear to me, but I see the digit 2. Does that mean anything to you? It may be your current residence or where you grew up, or another place of significance.”

Press enter or click to view image in full size

When I had a hit, I sometimes expanded with general statements. For example, for a childhood home, I said to one sitter:

“I get the sense that there was some problems with friends or relatives.”

That was spot on — her parents were going through a divorce during this time. If talking about the current home, I may use another general statement:

“I get the sense that somewhere in your home there is a box containing items related to an unusual hobby that you once pursued but that now lays dormant.”

Most people have had a hobby that they no longer pursue, and most people have trouble throwing stuff out that is of sentimental value to them.

Where I Drew the Line

I made sure to draw the line with items that would emotionally hurt people. For example, I never made negative statements about health (e.g., “I see someone close to you who had pain in their chest or abdomen.”) because this could quickly turn into an emotional situation that would be a goldmine for a less scrupulous psychic to exploit but that I feared may hurt people.

Similarly, I did not claim to channel the dead. When I heard about the kid who drowned in the pool, other psychics may have said “This child wants you to know that really appreciate that you came into the family and took their place because it made their mum and dad very happy.” One sitter had lost someone close to them and was actually seeing a medium to talk to them, so I stayed far away from that topic for the same reason.

Psychic Survey: Net Promoter Score of 62.5

After the reading was completed, I asked people to fill in a short survey to tell me how I'd done. First, I started out with a Net Promoter Score, which is a standard measure of how a company is doing. I probably had the bonus of people wanting to be nice, and they received the service for free, but I still got a very respectable score of 62.5, which is good even for a free service.

Press enter or click to view image in full size

I also asked for some free text feedback, and here is what I received, from raving endorsers to skeptics:

"All of his observations were correct. It was as though we spend a lot of time together — the personality points were really spot on, the intuitive thoughts on career and the box of unpacked things in my house were totally right."

"Probably the most surprising thing was reminding me of a time in my childhood when I fell out of a boat and swallowed some water. Scary at the time but no long-term consequences."

"Chris is excellent at letting his observations flow, has a knack for understanding where there needs to be emphasis and provides a positive way to view areas of your life that may need a little bit of a boost. It's uncanny how he can see the details and how on point he is."

"It was pretty interesting. It seemed like some of the information he was trying to reach was a bit vague and maybe difficult for him but perhaps with more practice it will become easier and clearer."

In another question, I gave people a slider for how often I was right vs. wrong, with 100% being fully correct. Only one person gave me less than 50%, meaning I was more right than wrong in an overwhelming amount of cases:

Give Cold Reading a Try

I'm not an expert in cold reading — all I did was read a book and prepare for my psychic sessions. You don't have to give full psychic readings to start with this: simply apply some of the techniques in everyday conversation. If you work in sales, check out my post on how to use cold reading in a sales context.

What a great read! I very much enjoyed. I came to your article while searching how to learn cold readings like Patrick Jane from the Mentalist.

Since you've written it, have you continued and cold read strangers you've come across?

Well the first thing to know, is that the influx of DM's you're going to get after posting this should probably be ignored. As a sub we recommend not replying to any unsolicited reading offers, as this is how a lot of scammers on the spirituality subs work. No good reader has to reach out for business.

Unfortunately the only way to find the right reader for you is by trial and error. Reviews can be faked, a reader who connects superbly with your best friend may not be able to read you, and cost has no bearing on a readers skills.

Unfortunately scammers are more & more common, you just have to browse this sub and the scammer subs to see it's becoming more & more popular. Just keep your wits about you and think about what you're doing. Think how much information you're giving someone (irl or online) and if you're asked to pay for anything above and beyond your pre-arranged reading fee, walk away. Any upselling of candles, crystals, rocks, spells or cleansing, walk away.

And don't be afraid to speak up if your reading doesn't resonate with you. No reader is 100% accurate 100% of the time - about 75% is good, but remember your reading is only advice. No reading comes with assurances or guarantees. And yes, we can get things wrong! But if you're 10 minutes on and NOTHING is making sense, stop your reader and tell them! A good one wants to know so they can refocus and correct their mistakes, or reschedule if for some reason they aren't connecting with you. Don't wait until the end to say it was rubbish, that just smacks of not wanting to pay.

Finally, we don't allow recommendations, reviews, promotion or advertising on this sub, but we do have a readers request and offer thread, which is exactly as it sounds! And we all readings offered through this sub must be completely free of charge, we don't even allow our readers here to ask for donations, and you're free to request from as many readers as you'd like as often as you'd like!

https://www.reddit.com/r/Psychic/comments/ylwewf/weekly_reading_offer_request_thread/?utm_source=share&utm_medium=ios_app&utm_name=iossmf

Good luck and enjoy

Well done. You said it all. I am a professional psychic (I am in no way soliciting). I just want to use that to say as someone who is both a client and a reader. There is an over saturation of illegitimate liars and thieves. So many of them ready to take your money. I would mostly stay offline for these services. It's too hard to trust. Myself has looked into brick and mortar stores. Where the psychic has cared enough to actually set up a physical business. You can go in, meet them, feel out their vibe, and schedule (if you like). I have walked in, and quickly out before. I think meeting the person face to face validates the service you should want to expect.

Thank you for your info. I've never had a reading, so I've actually been apprehensive about storefront psychics concerned about scamming. I realize scammers are everywhere though. So, how would you suggest someone scope out a psychic storefront to determine if you vibe with the reader? Is it OK to walk in and say your looking for a psychic you feel you have a connection with before scheduling a reading? And is it OK to just walk in without an appointment?

I'd heard about psychic fairs and wondered if that's a good way to find a psychic you like. I've never been to one, so is that too much energy in one place to get a good reading?

Obviously, I'm not a reader, so that might be an ignorant question. 😊 Some of the kids on 'Psychic Kids' mention being overwhelmed with many spirits reaching out to them, so it seemed plausible.

Thanks to everyone here for all the helpful suggestions!

Same ways you can make a decision to work with any trusted professional: referrals, research and intuition.

1) Ask anyone you feel comfortable with asking for recommendations for who they used
2) Do some due diligence: dig around, interview possible service providers and ask questions about their education, experience and approach 3) As you do 2/3, trust your vibes and let your own intuition lead you

That's what's helped me.

Synchronicities led me to an amazing psychic who changed my life.

I sought one out once before but it wasn't a great experience at all.

I feel like you should follow where your intuition leads you.

permalinkauthor-focusas-ofpreserve

[–]Pizzacat2475 points3 years, 2 months ago

It depends on what you are looking for and what kind of reading you want. If you want an in person psychic you can always talk with them first before booking something and see if you like their energy. It may be harder with online ones, but often they have a website or social media account of some form you can look through and get a feel for their overall vibe and style.

You can always look at reviews if they have them but I usually take them with a grain of salt. If you find one you like, and they are in your price range, I think the only way to really know is to try them out. I am somewhat wary of those who charge extremely high or extremely low prices though.

Are you in touch with your guides? If not, start there for best results. They have probably been sending you 11:11s or feathers to catch your attention. When you are ready to see, they will bring you more and more info. Mine brought me EVERY teacher I needed to move along. Be prepared to do your own homework.

Your biggest job at this moment, based on you describing this being a life question, is to observe. Your team knows you are seeking answers. I am telling you, they will show answers to you using symbolism and synchronicities that make sense to you.

If you need a teacher or a medium, one will come to you and you will feel the connection. This will require self control and patience not to over anticipate like I did! 😊

I honestly don't even know how to start to get in touch with my guides. I've seen angel numbers everywhere most of the days. Yesterday for example I saw 10:10 on the 10th of November. I'm observing, or maybe better to say analyzing, if not over analyzing. But I just can't seem to connect the dots unfortunately.

Your guides have likely been leaving you messages waiting for you to notice them!

Usually communications begin with synchronicities. They use symbols and visuals to get your attention for most until you work out clear communication. What that means will be different for everyone although many of us share similar experiences.

I talk to mine about the questions I have, I ask for insight. Meditate before bed. And listen as you are waking up. Those twilight moments before consciousness are when you will receive messages. Write them down right away before memory fades.

These are ways I have used myself. I'm sure others will have ideas as well.

I guess you have your answer already - but it's practically impossible for us to guarantee that you'll find a psychic in your immediate area, not knowing the area, etc. Also wanted to say, you have a psychic within you - perhaps you should think about trying to access Divine guidance in your daily life. All humans have that potential.

permalinkauthor-focusas-ofpreserve

[–]janlaag2 points3 years, 2 months ago

There's no absolute good psychic and no absolute bad psychic.. it's the relationship between the one person who reads and the object or subject of the reading that has to be good/easy so it really depends on what you need "a good psychic" for I think.

Still, maybe it's going to be useful to keep in mind that involving a third party in whatever communication means involving one more perspective that can be a very good "channel" or "mediator" but remains a singular human with its own experience, perceptive asset, limits and so on.

Not the answer you were looking for maybe, hope it still serves to a degree.

Over 7GB of Freemasonry E-Books

I mentioned in another thread that I have over 7GB of Freemasonry e-books. I couldn't

remember where I got them from, but I did a search over on the Pirate Bay and I'm pretty sure I found the torrent. It contains over 700 e-books, as well as images, periodicals, and a Masonic font (which is just the Masonic Cypher). AFAIK everything is in the Public Domain (so it should be legal), but I could be wrong; some of the books mentioned are also available via other links that someone else provided in another thread for free Masonic e-books. I've provided the link should any be interested in downloading the torrent. Clicking the link will only take you to the page, and will not start a download or anything. I hope y'all enjoy it.

I'm cleaning up file names a bit. The book themselves were split across two folders, and were all in upper case. There were underscores in the places of spaces. Some had an underscore in the place of a letter. I'm also going to move "The" to the end of titles so you properly alphabetize them.

The image folders I'm not sure what to do with. Many of the images just have a number and no name and I don't recognize them all. Some of the images don't appear to be masonic (they're just orders of knights or symbols of nations).

I might upload the collection to my Google Drive and share it where people can see it and more easily grab a single file rather than a .RAR file that is nearly 8 GB for the whole collection.

If someone can help me clean up the images, that would be great.

I'm thinking of cleaning the collection up and putting it into a Google Drive share where people can more easily browse the files and download what they want (or easily check out the whole folder).

At a glance that book appears silly, but I'm not sure I want to delete it entirely simply because I prefer to preserve things. I'm thinking of creating a sub-folder for "Not Necessarily Masonic" books and move some into there.

If you have suggestions for other "chaff" that I should separate, please let me know.

Could you post a list of the works? As a general rule, you can only be sure about works (published in the US) prior to 1923, though many published before 1964 are also PD.

Hey bro bros. I see a lot of Masonic apparel online. Never thought anything of it until I

met a guy from my lodge that wears Masonic.... Everything... every day. Is it common to draw attention to being a Mason outside of the lodge. I'm an EA and am not wearing the S&C yet. But is it common in the 3°?

Hey bro bros. I see a lot of Masonic apparel online. Never thought anything of it until I met a guy from my lodge that wears Masonic.... Everything... every day. Is it common to draw attention to being a Mason outside of the lodge. I'm an EA and am not wearing the S&C yet. But is it common in the 3°?

Looking for occult fiction audio books / torrent. Have a long drive ahead of me.
I already know about the many podcasts and Manly Hall audios. Looking for fiction suggestions. Wish something like John Constantine was an audio book. Thanks

I wonder if Foucault's Pendulum is available as an audio book? I wouldn't be surprised.

I check yesterday and couldn't find it, The Name of the Rose is up on YouTube though.

Am I allowed to mention the audiobookbay? I found Foucault's Pendulum on there about a year ago.

Would the Dresden books be a good recommendation? Not as dark as Constantine but kind of similar.

Stephen King has a bit of a bad reputation because of his mainstream praise. I think a lot of his work is fucking amazing when you are tapped in to this information. I recommend dream catcher. Easily my absolute favorite. If you know nothing about it, good. Keep it that way. Go in as blind as possible.

Insomnia is a little more mellow and "spiritual" and it sucked me right in despite me thinking I wouldn't be able to relate to any of the characters.

Don't be fooled by the fact that old housewives and kids love his books, there's absolutely deeper stuff going on in almost all of them.

Probably not what you're looking for but I'm listening to VALIS by Philip K Dick currently. Goes deep into gnostic philosophy and it's like a psychological SciFi about Maya and reality.

Sites for books?

Hey everyone! I have been desperately trying to find sites to read witch books free or without any additional financial burden but luck isn't by my side. Does anyone know any websites, links or books that are completely free? (If the urls are restricted from being published in public please text them to me, I would really appreciate it)

I second your local public library might surprisingly have a good amount of magic books. Also places like <https://www.sacred-texts.com/> or <https://hermetic.com/index>. Alternatively, you might be able to find PDF copies of a lot of books if you search for [book name] pdf.

This is where I get free books. I just searched on Cunningham, Buckland, Cabot and Gardner and found a shit load of books. Also just type in "witchcraft" or "wicca." You'll find a lot! <https://z-lib.org/>

Yes, or anything with “magick” in the title. (With a k!) also a website called PDF drive is pretty good. And if you’re looking to cough “borrow” things, in general, use the search engine Yandex, because better results will come up, I’ve found.

Your local public library. Many these days also have free apps for your phone, tablet, and laptop that let you borrow ebooks and audiobooks for free.

And many libraries will do an "inter-library loan" to bring in specific books they don't have in their own collection if you request them.

Talk to your local librarians as they are often very happy to help you!

The Llewellyn publishers site has free articles. And they had a browse pages of their books, bit more sample pages than Amazon. Site also has free tarot readings and a spell-a-day.

www.alchemywebsite.com

Twilight Grotto www.esotericarchives.com

There used to be a occult magick forum with dark brown pages had a big online library with free reading access but think they closed it.

Tarot forum closed but their archives still have access for reading online

www.tarotforum.net

Sacred-texts.com click per subject sidebar, each opens and sometimes there are interesting texts to read even if the subject is not your main interest.

Google books. Sample pages Amazon.

Site www.luckymojo.com

Random online searches sometimes bring up texts or bits of book texts. Libraries.

Amazon has a bunch, they change and rotate as authors make them free then not free. The kindle app can be downloaded on almost any device.

You can search torrent trackers for "occult library" and there's a 450gb torrent rip of that occult ebook hard drive being sold.

I'm not one of the original members of the founding group, but I was a member on their forum over a few years ago. You are right, the forum is still technically online, but noone

is allowed to post except admin(s). Private messaging still works, I am communicating with a longtime member, who says he will seed all the official Digimob torrents on request. In the meantime, you can find links to all their official torrents on Pirate Bay. I found 47 there. I do remember that the release index on their website listed about 50ish, but that index has been down for several years and the torrent files are no longer available.

However, I have finished 47 of the 49 torrents, and have been seeding them for almost a month. It has taken seemingly forever to get them. The only 2 that aren't finished are:

(digimob) Michael W. Ford LHP Occult Material, stuck at 0.0% with no seeds ever online

(digimob) Occult Mob's Submissions Digest #26.1 (98.01% finished, but taking FOREVER)

If anyone can help me finish these last 2 then *PLEASE* seed, thanks!

Feel free to leech from me if you want, I am online about 4 to 8 hours on most days, depending on my schedule.

I sent you a private message a few weeks ago, no answer, it's cool though.

Ebook Piracy and Wicca
What are your thoughts about this?

I feel that this has been a big problem, and many authors have lost so many sales because of the people who decided to not buy any books, but instead, torrent them.

For example:

<https://drive.google.com/file/d/0B835MeLjESycZDI6YWZzZ0REbHc/view>

I have no idea how to report the thousands of books I have found online for the Occult, Wicca, Witchcraft, and other forms of Paganism out there. Any ideas, like the link I posted?

I think it's a delicate situation. There isn't really a way to determine just how much the authors are actually losing out on, but it's probably not that much. However I think having them available might do more good than bad in this instance. A lot of young people can't have physical books around because of their families. And of course some people might not be able to afford them. Many libraries in smaller towns don't carry these types of books. It's also mostly older books that are torrented, so the authors have made about all they will from them anyway :/ Normally I'm against torrenting but this is just a weird situation.

I don't think there is really anywhere you can report them though. The government knows about big torrent sites already and file sharing on a smaller scale just isn't a priority.

There's an old saying that people don't value what they haven't paid for (either with money or with effort of some kind). Most people I know who have torrented occult books don't even read them.

.

I don't torrent myself because I don't want the malware which often accompanies torrent downloads. Can be very nasty indeed.

.

Also note that there are vast numbers of old texts online which are out of copyright - these are not the problem. It's only the modern texts for which pirating is an issue.

Before the Internet people were copying rare grimoires and manuscripts, I think it's inevitable with magic-related manuscripts

5

I don't acquire illegal downloads of books. To do so is like stealing from the author. Would you want to work for free? Do you know how many hours and how much money goes into making a book? It's disrespectful to the author.

2

[deleted]

•

11y ago

I don't consider it piracy. Torrents are a distribution method. If publishers want to they can spend money to manage the distribution method (and find a suitable price-point), or they continue spending money on "fighting" it (basically trying to put the genie back in the bottle).

I think authors (and to a smaller extent publishers) have a right to money for their work, and they can recoup that cost in through high-quality "hardcopy" editions, autographed editions, t-shirts, posters, etc.

Like others have said, it behooves people to go out and purchase a "hardcopy" of a book if they've enjoyed reading an eBook they downloaded. That way the author gets

paid and will hopefully write another book.

First. Scott Cunningham isn't losing anything because he is dead.

Second: When copyright laws were established the protection of original material lasted only for 13 years or so depending on location. The point of copyright law is to encourage the production of new works by allowing the creator to make a profit. That time limit was changed over time because BIG CORPORATIONS (Disney, etc.) bought Congressmen to keep making profits from Mickey Mouse and other properties rather than to make new works. It now prevents production of new works because creators no longer need to make anything new to make profits. I disagree with the gross extensions of copyright law to protect Corporate profits.

Third: Perhaps I'm old fashioned but I don't enjoy reading the on-line versions. I use them when I want to do a search such as finding out how many times Gardner mentioned "Wicca" in his books. Computers are really good at word matching searches.

Fourth: When I find an on-line edition that is interesting I'll buy a used hard copy. The big corporations hate that too. They don't want you to own a copy. The copy you buy can be read by two people, passed to another person, or sold used for a reduced price. They want you to pay for a "licenses to read." With computer copies they can control what you do with your copy until hackers make another copy.

Fifth: Having the on-line version allows me to read part of the book to see if I want a hard copy to read and for my own library. Even Amazon allows us to read a portion of new books before deciding to purchase.

In Summary, I support copyright laws that protect authors for the first 15 years or so, but not perpetual protection. I enjoy looking at books before purchase but I'm not going to read the whole thing. I also don't buy new copies of older books because used copies are just as good. There comes a time when older books should be public domain.

I was having a really hard time trying to figure out exactly where I sit on this issue, and then I read your response and realized that I agree 100%. Buying a used copy of a book, or borrowing a friend's, or having one "regifted", or checking one out from the library also do not do anything for the author or for the publisher.

I think the word "piracy" is a pretty intense word. I can check a book out from the library and make copies of pages I want to keep, or copy out a passage into my journal, and then share that with other people. Is that piracy? I'm not sure of the legal definition of such an act, but I'm sure they would try to find a way to get me in trouble for that.

I, like u/greybeard45, will check a book out first in a "free" way to see if I want to purchase it. If I do, then I will purchase it from one of my local, independently-run bookstores or metaphysical stores if I possibly can. If my local bookstore or metaphysical store doesn't carry it, I will ask them to order a copy for me so I can purchase it from them.

In my opinion, supporting local or niche businesses is way more important than supporting giant corporations like Amazon or Barnes & Noble, and it is my primary reason for buying books at all (other than the obvious "I want to read books" reason). And regardless of whether I buy it from Amazon or my local bookstore, the publisher is still getting their cut, and the author (or the author's estate) is still getting theirs. If I buy it from a used bookstore, well...tough shit for the publishers and authors.

I have a general dislike of torrent services, which is really more personal than ethical. Put simply, I don't want to get in trouble with my ISP if they find out I'm torrenting.

In my opinion, the advancements of technology are harming the industry - when you buy a "license to read", as mentioned above, that harms the industry in an indirect way, because people will be more inclined to find "free" or pirated copies of the book rather than pay for a specific, non-sharable copy of the book.

ALL OF THAT BEING SAID, I generally support anti-piracy laws. When people pirate small, independent movies, it makes it impossible for such movies to be made. When people pirate huge summer blockbusters, the studios don't give a crap because they're still going to make money hand over fist. Same with music - torrent the music, and the artist's progress is stunted. Buy the music, and the artist gets to keep making music.

Books are a little more complicated.

2

[deleted]

•

11y ago

this is a very complicated issue in my mind. i feel as if it is our responsibility as a community to pay them back, HOWEVER, as a religion, the ease of access to materials is what will bring more people in and allow for the exchange of knowledge which we should be striving for.

it is rare that the bible is pirated because theyre everywhere you look. its also the dominant religion, at least in the US.

1

u/midwintermoons avatar

midwintermoons

•

11y ago

The Bible is public domain. There is no copyright held on it, and no author or author's estate to profit from its sales. You can download copies of the Bible until the cows come home and it's perfectly legal. Very much a different thing than pirating a book published in 2008 by an author who relies on its sales for their paycheck, which is what people take issue with.

3

samata_the_heard

•

11y ago

Mmm, I'm not sure about that. I think certain translations of the Bible ARE copyrighted. The King James version is public domain, as are a few others. But if you're looking for one of those newfangled Bibles with a fresh, modern translation and a bunch of footnotes and expository text in it, you're going to pay for it.

There is a big difference between a "new" book published in 2008 and an old book published in 1988. Copyright laws should protect new books and other new works, but not older works. Christian book stores still make a decent profit on their bibles.

-1

The bible is actually one of the most shoplifted books in the world. I think people in general feel religious texts should be free.

1

u/AllanfromWales avatar

•

I think that statistic is based on taking Gideon bibles from hotel rooms, rather than

stealing from bookstores.

1

[deleted]

•

11y ago

It's almost moot. Books are only a resource--they can't teach you jack. Only experience does that, and personal practice, and books can't provide that.

Beyond that, most authors losing out on \$\$ are published by Llewellyn anyway, which pays them very little and treats them like dirt. Frankly, we need a better publisher to dominate the scene.

0

[deleted]

•

11y ago

Can you elaborate on Llewellyn paying little and treating authors like dirt? I'm not disagreeing with the statement, I'd just love to know more.

1

[deleted]

•

11y ago

Basically, they're not paid much for the work they do, and get a lower percentage of profits than other publishing houses would give. I've had the occasion to chat with authors published by that house. The general feeling (granted, it's a small sample of three or four) was that they're viewed as cash cows. Submit your manuscript and piss off.

In the interest of full disclosure, these convos were about a decade ago. Things may well have improved since then. They were also sued over one of their authors, Kisma Stephanich, who plagiarized her books Faery Wicca Parts One and Two and The Gaia Tradition from other authors.

Occult archives: reupload

Previous thread:

https://www.reddit.com/r/occult/comments/a8werm/i_have_approximately_130gb_of_occult_material/

Thanks to the redditors that explained the other post was blocked. I didn't realize there were content filtering settings that would block links to file sharing sites. Here's a link to a massive cache of occult material.

Here is the full list of files in the zips: <https://pastebin.com/HY1aZu34>

Here are the links to download the torrent files: <https://pastebin.com/nnsxFda8>

These are torrent files so it will take a while to seed them out at first. If you don't have the patience to run your computer for several days straight at first, I'd recommend checking back in 1 week when it should be better seeded. enjoy!

I'm getting a compressed file is corrupted when i try to uncompress.

Everything else folder only has 6.7GB worth of good files.

GRimores has 7.3 GB

Kabbalah 7.4 GB

How about not zipping all the files together and just seeding all of the files with an open file structure? Zipping the files together doesnt really save all that much data since Torrent compresses the files b4 sending it over the wire.

This got a much better response than I was expecting.

I am going to compress the folders to prevent the torrents being overleeches, but the compression rate is only 6-7%. I'm not going to bother trying to optimize it further.

I will upload these torrents to TPB soon and will post again when they're ready.

A pretty basic blast, 2d6 per rank, in an area, targeting fortitude.

The fact that it works for either living or undead casters is handy broadens the range of casters who might take it, though by lvl 9 you are probably firmly decided on being one or the other.

The option to spend an extra action for a different area is nice.

Overall, fine for any divine or occult fullcaster; though in some campaigns, it might be totally unsuitable for spontaneous casters. If you are alive and facing mostly alive enemies, probably not deserving of a repertoire slot, and vice-versa for undead. Great if you expect to meet the opposite often, and constructs rarely.

Not a lot to say, not because it's amazing or lame, but because it's very straightforward. It adheres to the typical 2d6 per rank damage pattern, with a choice of two large (if slightly awkward) areas of effect. Action expense is a little annoying for the cone, and lines are rarely useful, but hey, sometimes you devote an entire turn to a good blast. Easy to convert to remaster, negative becomes void and positive becomes vitality. Not helpful if you're a living creature fighting living creatures or undead fighting undead, but it's a perfectly serviceable blast otherwise, and it most likely doesn't hurt your allies, which is really nice. Divine and occult are low on blasts, so it's nice to see a straightforward standard-damage one. Compare to Howling Blizzard, which has similar effects with better action economy on the other two lists. Alternately, compare to 3-action Heal/Harm, which has the perk of both healing and damaging, and which has a better area for some circumstances, but which does a good deal less damage (1d8 averages 4.5 [1-8], 2d6 averages 7 [2-12]). It also just doesn't go as far from you, so if all the enemies are in one direction but they're spaced out, the cone is better.

Divine and occult have lots of Fort save options, but few are this straightforward of a damaging blast; definitely worth picking up if you're blasting on one of those lists, as long as you're fighting undead (or you're undead and fighting the living).
